Vendor: Microsoft

Exam Code: PL-900

Exam Name: Microsoft Power Platform Fundamentals

Version: 21.041

Important Notice

Product

Our Product Manager keeps an eye for Exam updates by Vendors. Free update is available within 150 days after your purchase.

You can login member center and download the latest product anytime. (Product downloaded from member center is always the latest.)

PS: Ensure you can pass the exam, please check the latest product in 2-3 days before the exam again.

Feedback

We devote to promote the product quality and the grade of service to ensure customers interest.

If you have any suggestions, please feel free to contact us at support@lead2pass.com

If you have any questions about our product, please provide Exam Number, Version, Page Number, Question Number, and your Login Account to us, please contact us at technology@lead2pass.com and our technical experts will provide support in 24 hours.

Copyright

The product of each order has its own encryption code, so you should use it independently.

If anyone who share the file we will disable the free update and account access.

Any unauthorized changes will be inflicted legal punishment. We will reserve the right of final explanation for this statement.

PayPal ID: ****

QUESTION 1

A large retail company implements Power Apps, Microsoft Flow, and the Common Data Service.

The board of directors is asking whether users are finding value in the technology. The company would like to measure and report usage of the software.

You need to recommend a tool to determine software usage.

What should you recommend?

- A. Microsoft Intune
- B. Azure Stream Analytics
- C. Power Platform Analytics
- D. Dynamics 365 Product Insights

Answer: C

Explanation:

The Power Platform Analytics Usage report is the default reports seen by the logged in environment admin. It provides total app launches and daily active users across all apps in the environment. Admins can filter the view with attributes like device platform, player version, country, state, and city.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/analytics-powerapps>

QUESTION 2

You create a business rule on contact entity to enforce the requirement that users must enter either a telephone number, fax number, or an email when creating a new record.

The company decides to remove fax number from the condition.

You need to update the business rule.

What are two ways of achieving the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Save a copy of the rule and change the condition. Deactivate and delete the original rule.
- B. Deactivate the business rule and change the condition.
- C. Take a snapshot of the business rule and change the condition.
- D. Change the condition and activate the change.

Answer: AD

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/working-with-rules>

QUESTION 3

A coworker is creating an app in Power Apps and needs to automatically synchronize data from an external source. The coworker is unable to locate a suitable Microsoft approved connector template in AppSource.

You need to recommend a solution for the coworker.

What should you recommend?

- A. Create a custom connector.
- B. Ask the outside source to send you the data once a week.
- C. Use Microsoft Flow to connect to the database.
- D. Open a ticket with Microsoft and request a new connector.
- E. Use Microsoft Azure Service Bus.

Answer: A

Explanation:

There are 250 + predefined connectors that you can use in your PowerApps and in your Microsoft Flows. If you do not find any that suits your needs you have the possibility to create a Custom Connector.

Note: A Custom Connector is a wrapper around a REST API (Logic Apps also supports SOAP APIs) that allows Logic Apps, Microsoft Flow, or PowerApps to communicate with that REST or SOAP API.

Reference:

<https://carinaclaesson.com/2019/09/06/setting-up-a-custom-connector-from-an-openapi-file-and-utilizing-it-in-powerapps-and-flow/>

QUESTION 4

A toy company creates a text classification model in AI Builder to monitor customer feedback for specific key words.

When negative feedback is received for a toy, the company wants to proactively perform engineering reviews for the toy and schedule additional training sessions for workers who produce the toy. What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Create a canvas app.
- B. Implement the Virtual Agent.
- C. Build a Microsoft Flow.
- D. Use the Common Data Model.

Answer: AC

Explanation:

A (not D): AI Builder comes with:

A ready-to-use business card reader available in canvas as well as in model-driven apps.

Business card reader (Canvas)

Business card reader (Model-driven)

Additional canvas components to leverage your AI Builder form processing or object detection models canvas apps.

C: Use the results from your AI model across Power Platform to create end-to-end solutions that meet your business needs, even if you have no coding skills. For example, create a flow that automates document processing in Power Automate, or an app created with PowerApps that predicts whether a supplier will be out of compliance.

Reference:

<https://docs.microsoft.com/en-us/ai-builder/use-in-powerapps-overview>

QUESTION 5

Drag and Drop Question

A company is using Power BI to build visualizations.

The company's IT support team needs to know when to install Power BI Desktop on users' computers and where the Power BI Service will suffice to perform tasks.

You need to recommend solutions for the company.

What should you recommend? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Requirement	Component
Power BI Service only		Create dashboards.	Tool
Power BI Desktop only		Create reports.	Tool
Power BI Desktop or Power BI Service		Create calculated columns.	Tool
		Configure security.	Tool
		Configure sharing.	Tool

Answer:

Tools	Answer Area	Requirement	Component
Power BI Service only		Create dashboards.	Power BI Service only
Power BI Desktop only		Create reports.	Power BI Desktop or Power BI Service
Power BI Desktop or Power BI Service		Create calculated columns.	Power BI Desktop only
		Configure security.	Power BI Desktop or Power BI Service
		Configure sharing.	Power BI Service only

Explanation:

In a Venn diagram comparing Power BI Desktop and the Power BI service, the area in the middle shows how the two overlap. Some tasks you can do in either Power BI Desktop or the service. The two sides of the Venn diagram show the features that are unique to the application and the service.

Reference:

<https://docs.microsoft.com/en-us/power-bi/designer/service-service-vs-desktop>

QUESTION 6

Drag and Drop Question

A company plans to create an information portal that managers can use to view critical information about their teams.

You need to recommend the type of Power BI components that the company should use.

What should you recommend? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE. Each correct selection is worth one point.

Component types	Answer Area	
	Requirement	Component type
Dashboard	Display data from a Microsoft Excel workbook that has multiple worksheets into one chart.	Component type
Report	Display the top departmental goal metrics and alert users when specific thresholds targets are met.	Component type
	Display Sales charts that can be filtered by region.	Component type

Answer:

Component types	Answer Area	Component type
Requirement		
Dashboard	Display data from a Microsoft Excel workbook that has multiple worksheets into one chart.	Report
Report	Display the top departmental goal metrics and alert users when specific thresholds targets are met.	Dashboard
	Display Sales charts that can be filtered by region.	Report

Explanation:

Box 1: Report

Reports are more detailed data displayed in many formats like chart, graphs list and in tabular, etc.

Box 2: Dashboard

Dashboards are a business key performance indicator view where it displays key values that can change business profits and can be glanced at one screen.

Box 3: Report

Power BI dashboards cannot slice and dice, but reports have many ways to filter and slice.

Note: Power BI dashboards are one placeholder to display the most important decision-making facts to run a business. But reports are more detailed data displayed in many formats like chart, graphs list and in tabular, etc. Reports are based on one dataset or one business unit data for example reports of a store belonging to California.

Reference:

<https://www.educba.com/power-bi-dashboard-vs-report/>

QUESTION 7

Hotspot Question

You have a Power BI report.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input type="radio"/>
You must export data to view supporting data for a KPI.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input checked="" type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input checked="" type="radio"/>
You must export data to view supporting data for a KPI.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Box 1: Yes

If you'd like to see the data that Power BI uses to create a visualization, you can display that data in Power BI. You can also export that data to Excel as an .xlsx or .csv file. The option to export the data requires a Pro or Premium license and edit permissions to the dataset and report.

Note: Export data from a Power BI dashboard

1. Select the ellipsis in the upper-right corner of the visualization.
2. Choose the Export data icon.
3. Power BI exports the data to a .csv file. If you've filtered the visualization, then the app will filter the downloaded data.
4. Your browser will prompt you to save the file. Once saved, open the .csv file in Excel.

Box 2: No

Underlying data: Select this option if you want to see the data in the visual and additional data from the model (see chart below for details). If your visualization has an aggregate, selecting Underlying data removes the aggregate. When you select Export, Power BI exports the data to an .xlsx file and your browser prompts you to save the file. Once saved, open the file in Excel.

Box 3: Yes

A KPI dataset needs to contain goal values for a KPI. If your dataset doesn't contain goal values, you can create them by adding an Excel sheet with goals to your data model or PBIX file.

Note: A Key Performance Indicator (KPI) is a visual cue that communicates the amount of progress made toward a measurable goal.

Reference:

<https://docs.microsoft.com/en-us/power-bi/visuals/power-bi-visualization-export-data>

<https://docs.microsoft.com/en-us/power-bi/visuals/power-bi-visualization-kpi>

QUESTION 8

Drag and Drop Question

A company needs to create a series of mobile applications to empower their field engineers to accomplish several tasks with varying degrees of complexity.

Match each option to its answer.

Instructions: To answer, drag the appropriate app type from the column on the left to its definition on the right. Each app type may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

App types	Answer Area	Definition	App type
model-driven		Quickly create apps for very complex business processes with very little or no code.	
dashboard		Create simple apps with a highly customizable user interface layouts.	
dataset			
canvas			

Answer:

App types	Answer Area	Definition	App type
dashboard		Quickly create apps for very complex business processes with very little or no code.	canvas
dataset		Create simple apps with a highly customizable user interface layouts.	model-driven

Explanation:

Box 1: canvas

Both model-driven and canvas apps allow you to easily build business apps. They both share access to the Common Data Service providing standard and custom entities. Canvas apps start with your user experience, crafting a highly tailored interface with the power of a blank canvas and connecting it to 200 data sources. Canvas apps can be built for web, mobile, and tablet applications. Model-driven apps start with your data model ?building up from the shape of your core business data and processes in the Common Data Service to model forms, views, and other components. Model-driven apps automatically generate great UI that is responsive across devices.

Box 2: model-driven

Reference:

<https://powerapps.microsoft.com/sv-se/blog/introducing-model-driven-apps/>

QUESTION 9

Drag and Drop Question

A company is building a Power Apps portal.

You need to select out-of-the-box portal types to meet the company's requirements.

Which portal types should you use? To answer, drag the appropriate portal types to the correct requirements. Each portal type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Portal types	Answer Area	Portal type
Requirement		
partner portal	Collaboratively onboard new suppliers and distributors.	Portal type
community portal	Publish a blog post announcing new suppliers.	Portal type
portal from blank		
customer self-service portal		

Answer:

Portal types	Answer Area	Portal type
Requirement		
partner portal	Collaboratively onboard new suppliers and distributors.	partner portal
community portal	Publish a blog post announcing new suppliers.	community portal
portal from blank		
customer self-service portal		

Explanation:

Box 1: Partner portal

A partner portal allows every organization with resellers, distributors, suppliers, or partners to have real-time access to every stage of shared activities.

Box 2: Community portal

A community portal leverages peer-to-peer interactions between customers and experts to organically grow the catalog of available knowledge from knowledge base articles, forums, and blogs as well as providing feedback through comments and ratings.

Incorrect Answers:

Portal from blank: Create a website to share data with external and internal users. This template comes with sample pages to get you quickly started.

Customer self-service portal: A customer self-service portal enables customers to access self-service knowledge, support resources, view the progress of their cases, and provide feedback.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/portals/portal-templates>

QUESTION 10

Your company uses Dynamics 365.

When a service ticket is created, a technician visit to the customer is required. Technician visits should be consented to by a manager.

You need to ensure that the process is followed.

What should you use?

- A. Approval flow
- B. Scheduled flow
- C. Button flow

D. Business rule

Answer: A

Explanation:

You should use approval flows to manage the approval process. These are used for managing approval processes or automating the approval system, like approving an inventory request or approving a leave request.

You should not use schedule flows. Schedule flows are used when you want to perform an action on a specific time or duration, like after an hour or once a day.

You should not use button flows. Button flows are used to automate tasks with a click of a button. Once a button is clicked, it will trigger an action.

You should not use business rules. These are used when you want to perform a series of tasks in a specific order.

QUESTION 11

Hotspot Question

You build a Power BI report.

You need to inform a business user on how to use the report.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Statement	Yes	No
You can export data from a visualization in the report.	<input type="radio"/>	<input checked="" type="radio"/>
You can access multiple datasets in the same report.	<input checked="" type="radio"/>	<input type="radio"/>
You can see the underlying data behind a visualization without exporting it.	<input checked="" type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
You can export data from a visualization in the report.	<input checked="" type="radio"/>	<input type="radio"/>
You can access multiple datasets in the same report.	<input type="radio"/>	<input checked="" type="radio"/>
You can see the underlying data behind a visualization without exporting it.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

You can export data from a visualization in the report. You can export the summarized data used to build the visualization and the underlying data behind the visualization as CSV or Excel files. You cannot access multiple datasets in the same report. Power BI reports are based on a single dataset with capabilities to interact with your visualizations, like applying filters and slices and exporting the data.

You cannot see the underlying data behind a visualization without exporting it. You can see the summarized data in a report visualization using the Show as Table option. To see the underlying data behind a visualization, you need to export it first.

QUESTION 12

Your company has an on-premises Microsoft SQL Server database that contains legacy sales data. You must display information from the database in a new Power Apps app.

You need to establish a secure connection between the database and the app.

What should you use?

- A. Data source
- B. App
- C. Gateway
- D. Flow

Answer: C

Explanation:

For an on-premises database, identify a data gateway that was shared with you (or create one). Specify Connect using on-premises data gateway, type or paste the server name, the database name, the user name, and the password for the database that you want to use, and specify the authentication type and the gateway.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections/connection-azure-sqldatabase>

QUESTION 13

A recent update has been made to a canvas app.

The update has caused a negative impact to users.

You need to roll back the app to a previous version.

What should you do?

- A. Restore the previous version of the app.
- B. Uninstall the app for all users and reinstall by using the previous versions' package.
- C. Deactivate the live app, import the previous version of the app, and then activate the app.
- D. Delete the app and create a new app based on the previous version.

Answer: A

Explanation:

Restore a canvas app to a previous version in PowerApps.

Restore an app from your account

1. Open powerapps.com, and then click or tap Apps in the left navigation bar.

2. Near the right edge, click or tap the info icon for the app that you want to restore.
3. Click or tap the Versions tab, and then click or tap Restore for the version that you want to restore.
4. In the confirmation dialog box, click or tap Restore.

A new version is added to your list.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/restore-an-app>

QUESTION 14

A company uses Dynamics 365 Supply Chain Management.

The company wants to build customer user interfaces that add additional functionality.

You need to recommend a solution for the company.

What should you recommend?

- A. Power BI
- B. Power Apps canvas apps
- C. AI Builder
- D. Microsoft Flow

Answer: B

Explanation:

Microsoft Power Apps provides a consistent experience for building apps and extending Office 365 and Dynamics 365. Investments include enhancements on Unified Interface, support for embedding canvas apps in model-driven apps and native support of the Common Data Service for Apps.

Reference:

<https://powerapps.microsoft.com/en-us/roadmap/>

QUESTION 15

A company uses Dynamics 365 Supply Chain Management.

You need to use Microsoft Flow to automate the process of receiving and tracking raw materials.

Which type of connector should you use?

- A. Common Data Service
- B. Dynamics 365
- C. Dynamics 365 for Fin & Ops
- D. Dynamic Signal

Answer: A

Explanation:

Dynamics 365 for Finance and Operations is now being licensed as Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

You can use Common Data Service to enable the flow of data between Finance and Operations apps and Dynamics 365 Sales.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/data-entities/data-integration-cds>

QUESTION 16

A company performs on-site inspections and services for air industrial equipment.

Field technicians must perform a series of maintenance checks every time they visit a customer site. Every technician performs maintenance tasks in a different order. Some technicians miss steps.

You need to ensure that all technicians perform the same steps in the same order.

What should you use?

- A. Business process flow
- B. AI Builder
- C. Business rule
- D. Virtual Agent

Answer: A

Explanation:

You can help ensure that people enter data consistently and follow the same steps every time they work with a customer by creating a business process flow. For example, you might want to create a business process flow to have everyone handle customer service requests the same way, or to require that people get approval for an invoice before submitting an order. Business process flows use the same underlying technology as other processes, but the capabilities that they provide are very different from other features that use processes.

Reference:

<https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview>

QUESTION 17

You need to use Microsoft Flow to perform data-management tasks when users interact with the sales opportunities in Dynamics 365.

Which three types of triggers can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. record requested
- B. record deletion
- C. record creation
- D. record updated
- E. record selected

Answer: BCD

Explanation:

Triggers like When a record is created, When a record is updated, and When a record is deleted initiate your flow within a few minutes of the event occurring. In rare cases, your flow can take up to 2 hours to trigger.

Reference:

<https://docs.microsoft.com/en-us/power-automate/connection-dynamics365>

QUESTION 18

Hotspot Question

A company plans to use Power Apps to connect to a series of custom services. There are no connectors available for the custom services.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Custom connectors for customer-specific services do not require review and certification by Microsoft.	<input type="radio"/>	<input type="radio"/>
You can build a custom connector once and reuse the connector for Power Apps and Microsoft Flow.	<input type="radio"/>	<input type="radio"/>
You can make custom connectors publicly available for all Power Platform users without having Microsoft certify the connector.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Custom connectors for customer-specific services do not require review and certification by Microsoft.	<input checked="" type="radio"/>	<input type="radio"/>
You can build a custom connector once and reuse the connector for Power Apps and Microsoft Flow.	<input checked="" type="radio"/>	<input type="radio"/>
You can make custom connectors publicly available for all Power Platform users without having Microsoft certify the connector.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Box 1: Yes

Only if you would like to share your connector with all users of Logic Apps, Microsoft Flow, and PowerApps, you can submit your connector for Microsoft certification. Microsoft will review your connector.

Box 2: Yes

Connectors created in Microsoft Flow are available in PowerApps. Likewise, connectors created in PowerApps are available in Microsoft Flow.

Box 3: No

If you would like to share your connector with all users of Logic Apps, Microsoft Flow, and PowerApps, you can submit your connector for Microsoft certification. Microsoft will review your connector.

Reference:

<https://docs.microsoft.com/en-us/connectors/custom-connectors/>

QUESTION 19

Hotspot Question

A company uses a third party application and an approval process via email. At the end of the month, the IT department enters the data into Microsoft Excel to create pivot charts.

The Excel pivot charts must use the same data source as Dynamics 365 Field Service to generate charts and reports.

You need to recommend a solution.

What should you recommend? To answer, select the appropriate configuration in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Solution
Create an approval workflow.	<div style="border: 1px solid black; padding: 5px;"><input type="checkbox"/> Dynamics 365 Workflow Notifications <input type="checkbox"/> Microsoft Outlook Integration <input type="checkbox"/> AI Builder <input type="checkbox"/> Microsoft Flow</div>
Connect to report data.	<div style="border: 1px solid black; padding: 5px;"><input type="checkbox"/> Common Data Service and Power BI <input type="checkbox"/> Third-party from AppSource <input type="checkbox"/> Custom Code flat file integration <input type="checkbox"/> Dynamics 365 Field Service</div>

Answer:

Answer Area

Requirement	Solution
Create an approval workflow.	<div style="border: 1px solid black; padding: 5px; width: fit-content; margin-left: auto; margin-right: auto;"><p>Dynamics 365 Workflow Notifications</p><p>Microsoft Outlook Integration</p><p>AI Builder</p><p>Microsoft Flow</p></div>
Connect to report data.	<div style="border: 1px solid black; padding: 5px; width: fit-content; margin-left: auto; margin-right: auto;"><p>Common Data Service and Power BI</p><p>Third-party from AppSource</p><p>Custom Code flat file integration</p><p>Dynamics 365 Field Service</p></div>

Explanation:

Box 1: Dynamics 365 Workflow notifications

You can configure the system to send email messages to users when workflow-related events occur.

Note:

1. Go to Navigation pane > Modules > System administration > Users > Users.
2. In the list, find and select the desired record.
3. On the Action pane, click User options.
4. Click the Workflow tab. Make sure that the Notifications section is expanded. In the Notifications section, you can specify how you want the user to be notified about workflow-related events.

Box 2: Dynamics 365 Field Service

Supply Chain Management enables synchronization of business processes between Dynamics 365 Supply Chain Management and Dynamics 365 Field Service. The integration scenarios are configured by using extensible Data integrator templates and Common Data Service to enable the synchronization of business processes. Standard templates can be used to create custom integration projects, where additional standard and custom fields and entities can be mapped to adjust the integration and meet specific business needs.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/fin-ops/organization-administration/tasks/users-receive-workflow-related-email-messages>

QUESTION 20

Drag and Drop Question

You build a flow using a template. You want to add support for additional business scenarios.

You need to ensure that the new workflow does not break existing functionality.

Which flow editing utilities should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag

the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Tool
Test	Requirement Check the new flow for any errors or warnings.	Tool
Flow Checker	Requirement Run the flow using previously processed data.	Tool
	Requirement Monitor the flow as it is running.	Tool

Answer:

Tools	Answer Area	Tool
Test	Requirement Check the new flow for any errors or warnings.	Flow Checker
Flow Checker	Requirement Run the flow using previously processed data.	Test
	Requirement Monitor the flow as it is running.	Test

Explanation:**Box 1: Flow Checker**

The Flow checker feature will promote higher quality flows by ensuring you follow best practices. By running the checker, you will be able to get answers to questions like: which areas of my flow implementation pose a performance or reliability risk?

For each issue identified, the Flow checker points to specific occurrences within the flow where improvements may be required. And more importantly, you learn how to implement these improvements by following detailed guidance.

Box 2: Test

Box 3: Test

Reference:

<https://flow.microsoft.com/en-us/blog/flow-checker-four-connectors/>
<https://docs.microsoft.com/en-us/power-automate/modern-approvals>

QUESTION 21

Drag and Drop Question

You plan to use Microsoft Flow to monitor what people are saying about your company's products. You store the feedback for research and development purposes. You need to

recommend Flow components to use for the solution.

To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Components	Answer Area	
	Requirement	Component
action	Retrieve the top five posts from your company's Facebook page.	Component
expression	Enter the resulting posts into the product database.	Component
service	Combine author and link fields into a single field.	Component
trigger	Run flow every hour.	Component
flow type		Component

Answer:

Components	Answer Area	
	Requirement	Component
	Retrieve the top five posts from your company's Facebook page.	trigger
service	Enter the resulting posts into the product database.	action
	Combine author and link fields into a single field.	expression
	Run flow every hour.	flow type

Explanation:

Box 1: Trigger

A trigger is something that triggers or starts the workflow. It could be a new file uploaded to a document library, a new item created in the list or an email sent to your Inbox ?something that will start (kick-off the workflow).

There are two types of triggers:

Automatic trigger is pre-programmed into the workflow based on a certain rule (i.e. new document or item created, email sent, etc.)

Manual Trigger is a trigger initiated by a user. Unlike with automatic trigger above, the workflow will only start when initiated manually by the end user (for example, from the Document Library for a selected file). Manual trigger is only supported for certain types of workflows (i.e. Get feedback from your manager for the selected file)

Box 2: action

An action is something that occurs as a result of the workflow.

Box 3: expression

Sometimes users just need to do basic operations like getting the current time, adding numbers

together, or replacing a part of a string of text. That's possible inline in any flow action. Microsoft Flow leverages the same Workflow Definition Language used by Azure Logic apps. For new users who are unfamiliar with the expression language, there is an inline help experience that shows how to use each expression as they build out their flow.

Box 4: flow type

There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow.

Reference:

<https://sharepointmaven.com/3-major-components-microsoft-flow/>

<https://www.avepoint.com/blog/office-365/office-365-automation/>

<https://flow.microsoft.com/de-de/blog/use-expressions-in-actions/>

QUESTION 22

Drag and Drop Question

A company plans to use Microsoft Flow to automate tasks.

Match each flow type to its function. To answer, drag the appropriate flow type from the column on the left to its description on the right. Each option may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Flow types	Answer Area	Description	Flow type
automated		a flow that runs after it is triggered by an event	Flow type
business process		a flow that guides a user through a set of tasks	Flow type
scheduled		a flow that runs after a specified number of days	Flow type
instant		a flow that allows you to start tasks on-demand	Flow type

Answer:

Flow types	Answer Area	Description	Flow type
		a flow that runs after it is triggered by an event	automated
		a flow that guides a user through a set of tasks	business process
		a flow that runs after a specified number of days	scheduled
		a flow that allows you to start tasks on-demand	instant

Explanation:

Box 1: automated

Automated flows start with an event or trigger, such as an email being received. These also

support a multitude of actions in the 200+ Flow connectors.

Box 2: business process

The business process flow that creates stages or screens that enforce a certain sequence of steps. It collects data from users for each step in the stage and can kick off automated workflows.

Box 3: scheduled

Scheduled flows run regular reports that are sent out to a team and summarize everything that's happened in the past week. This includes everything from simple daily scheduling to more complex scheduling like "every 3rd Monday."

Box 4: instant

An instant flow is triggered when you click a button inside of the Flow mobile app, SharePoint, Dynamics, PowerApps, or Excel that passes context directly into your flow.

Note: There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow.

Reference:

<https://www.avepoint.com/blog/office-365/office-365-automation/>

QUESTION 23

You are the Power Platform administrator in your company.

You want to create new users and manage their license assignment. You need to use the appropriate admin center to perform these tasks. What should you use?

- A. Dynamics 365 admin center
- B. Power Platform admin center
- C. Microsoft 365 admin center
- D. Power Apps admin center

Answer: C

Explanation:

You should use the Microsoft 365 admin center to create new users and manage their license assignment. You can also manage billing and payment methods in this admin center.

You should not use the Power Platform admin center. You can use this admin center to manage Common Data Service (CDS) environments and consult your environment analytics and capacity.

You should not use the Power Apps admin center. You can use this admin center to manage environments, including the apps and flows within a environment.

You should not use the Dynamics 365 admin center. You can use this admin center to rename, reset and delete a CDS environment.

QUESTION 24

The Common Data Model (CDM) is a standard and extensible collection of schemas, including entities, attributes and relationships that represents business concepts and activities with well-defined semantics. It consists of a set of standardized, extensible data schemas published by Microsoft and partners to facilitate data interoperability.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. Common Data Services (CDS)
- B. Dynamics 365 Business Central

- C. Business process flow
- D. No change is needed.

Answer: D**Explanation:**

The Common Data Model (CDM) is a standard and extensible collection of schemas, including entities, attributes and relationships that represents business concepts and activities with well-defined semantics. It consists of a set of standardized, extensible data schemas published by Microsoft and partners to facilitate data interoperability.

You should not change to Common Data Services (CDS). CDS is used to store and manage data used by business applications. The data is stored within a set of entities. CDS uses the CDM to provide a set of standardized entities used by your applications.

You should not change to Dynamics 365 Business Central. This is an end-to-end solution for finance, sales, services, and operations for small and mid-sized companies.

You should not change to business process flow. This is a type of Power Automate flow that configures a set of steps to be followed by users, resulting in a standard business process. For example, you might need a business process flow to handle customer service requests similarly.

QUESTION 25

You create a Power BI dashboard that displays data from Dynamics 365 Customer Engagement. You need to share the Power BI dashboard with coworkers.

What are three possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Create a Power BI workspace and grant coworkers permissions.
- B. Publish the dashboard as an app to your coworkers.
- C. Export the data into Common Data Service for others to manipulate in Power BI.
- D. Export the data to Microsoft Excel for coworkers to import and view in Power BI.
- E. Embed reports in your company's internal web portal.

Answer: ABE**Explanation:**

A: Basic Sharing for Dashboards and Reports through a workspace is the most common way of sharing the Power BI content. Basic Sharing is very simple and easy to use method. You can simply click on the Share button in the dashboard or report, and then share it with other users.

B: Apps are great sharing method for multiple environment, and best way of sharing for users in production environment.

Power BI App is the solution for multiple environment approach. With Power BI App, your development environment (workspace), and user environment (App) are isolated from each other. Note: If you are using SharePoint online as a portal for document management and some other reasons already, then consider using Embed in SharePoint Online feature of Power BI reports.

This method is secure and you can share the report only with Power BI users you want.

E: Sometimes, you don't need a secure way of sharing, you may search for an easy and free way of sharing, and your content is not confidential or sensitive. Publish to web is your friend in such situation.

This is the only free way of sharing in Power BI, but be aware that this method is not secure. Publish to web method, gives you an embed code, which you can use in any web pages to embed the Power BI report in it

Reference:

<https://radacad.com/power-bi-sharing-methods-comparison-all-in-one-review>

QUESTION 26

A company uses Dynamics 365 Supply Chain Management.

When a sales order is created for one of the customers that a specific user manages, a Microsoft Outlook task must be created to remind the user to perform any follow up activities that are required.

You need to implement the functionality to create Outlook tasks.

Which two features should you use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. AI Builder
- B. Power Apps
- C. Business Events
- D. Microsoft Flow
- E. Common Data Service

Answer: CD

Explanation:

Business events in Microsoft Power Automate

Business events can be consumed in Microsoft Power Automate via the application connector. The connector has a trigger that is named when a business event occurs. This trigger can be used to subscribe to any of the business events that are available in the target instance of the application.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/business-events/business-events-flow>

QUESTION 27

This question requires that you evaluate the underlined text to determine if it is correct.

A company requires that service representatives schedule customer visits every six months. Each service representative is required to enter a scheduled task for the next checkup as they are leaving a client site. A service representative wants to automate task entry by creating a business process flow that can be initiated from the service call screen on a phone.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. a scheduled
- C. an instant
- D. an action

Answer: D

Explanation:

Note: Create a flow (see step 6 below)

1. Sign in to PowerApps.
 2. In the left navigation bar, select Business logic, and then select Flows.
 3. In the upper-left corner of the My Flows page, select New, and then select Create from blank.
 4. Option to create a flow without using a template
- Near the bottom of the page that appears, select Search hundreds of connections and triggers.
5. In the search box, type PowerApps, and then select the PowerApps icon.
 6. Create a PowerApps trigger
 7. On the next page, select the PowerApps icon again, and then select New step.
 8. In the box that says Search connectors and actions, specify an action for your flow, as in this example:

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/using-logic-flows>

QUESTION 28

Users within a company use Flow for personal productivity.

Users often overwrite their working flows by editing the definitions and are unable to undo changes after saving a flow.

You need to ensure that users can revert a flow to the current state.

Which two options can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Export
- B. Rename
- C. Save As
- D. Share

Answer: AC

Explanation:

A: You can export a flow as a package and import it into a different environment, or use it to restore it in the same environment at a later point in time.

C: The ability to make a copy of your flow is often useful when you want to create a flow similar to something you've already created. Or, if you want to maintain a draft of your working flow as you work on adding more functionality.

Here's how:

Go to your My flows page. Click on the More (...) menu item next to the flow that you want to

create a copy of. Click on the Save As command.

Reference:

<https://flow.microsoft.com/en-us/blog/import-export-bap-packages/> <https://flow.microsoft.com/en-us/blog/make-a-copy/>

QUESTION 29

You use Microsoft Flow to create a flow that automatically sends email to a project manager when project team members mark a task as complete.

Project team members are prematurely marking tasks as complete. You must add quality control into the process by sending an email to a project lead for confirmation that the task is in fact complete before sending the email to the project manager.

You need to modify the flow.

Which component should you use?

- A. a process argument
- B. a condition
- C. an expression
- D. a trigger
- E. an action

Answer: B

Explanation:

Use a condition and set the action to send an email.

Reference:

<https://docs.microsoft.com/en-us/power-automate/add-condition>

QUESTION 30

A company uses Microsoft Flow.

Each time a work order is created, a service manager must review and approve the work order before a worker is dispatched.

You need to create a flow to enforce the process.

What should you create?

- A. plug-in
- B. approval flow
- C. business rule
- D. team flow
- E. instant flow

Answer: B

Explanation:

With Power Automate, you can manage the approval of documents or processes across several services, including SharePoint, Dynamics 365, Salesforce, OneDrive for Business, Zendesk, or WordPress.

Reference:

<https://docs.microsoft.com/en-us/power-automate/modern-approvals>

QUESTION 31

You are new to working with Microsoft Flow. You create a flow that extracts birth dates for users and then sends a birthday greeting email to users on their birthday.

The flow does not properly extract birth dates.

Where should you make changes?

- A. Connectors
- B. Expression
- C. Templates

Answer: A

Explanation:

Select the new Date Time connector. There you will see all of the actions, which help you to convert time zones to format them for local time in an email, add or subtract times, or just get the current time.

Reference:

<https://flow.microsoft.com/en-us/blog/nested-apply-to-each/>

QUESTION 32

A company manages a chain of retail stores. The company stores a list of retail store names and numbers in one Power BI table. The company stores sales transaction data including a transaction ID in another table. The transaction ID includes the store number.

You need to show the store name for all retail transactions in all Power BI reports.

Which tool should you use?

- A. Query Editor
- B. Power BI Service
- C. Microsoft Excel
- D. Data Connector

Answer: A

Explanation:

Power BI Desktop comes with Query Editor, where you can connect to one or many data sources, shape and transform the data to meet your needs, then load that model into Power BI Desktop.

Reference:

<https://docs.microsoft.com/en-us/power-bi/desktop-query-overview>

QUESTION 33

Hotspot Question

You create a user-owned custom entity by using Common Data Service.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can change the entity ownership from User to Organization-owned.	<input type="radio"/>	<input type="radio"/>
You can create a business rule for a custom entity that can be used in a Flow.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
You can change the entity ownership from User to Organization-owned.	<input type="radio"/>	<input checked="" type="radio"/>
You can create a business rule for a custom entity that can be used in a Flow.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Box 1: No

Common Data Service supports two types of record ownership. Organization owned, and User or Team owned. This is a choice that happens at the time the entity is created and can't be changed.

Box 2: Yes

By combining conditions and actions, you can do any of the following with business rules:

- Set field values
- Clear field values
- Set field requirement levels
- Show or hide fields
- Enable or disable fields
- Validate data and show error messages
- Create business recommendations based on business intelligence.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/wp-security-cds>

QUESTION 34

Drag and Drop Question

You need to explain the major components of the Common Data Model (CDM) and their

functions.

Match each term to its definition.

Instructions: To answer, drag the appropriate term from the column on the left to its definition on the right. Each term may be used once, more than once, or not at all. Each correct match is worth one point.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	
	Purpose	Tool
Entities	Helps jumpstart application development by leveraging business logic, security, and integrations.	
Data connectors	A set of records used to store data.	
Common Data Service		Tool
Common Data Model		Tool
Microsoft Power Platform		
Workflows		

Answer:

Tools	Answer Area	
	Purpose	Tool
Data connectors	Helps jumpstart application development by leveraging business logic, security, and integrations.	Microsoft Power Platform
Common Data Service	A set of records used to store data.	Entities
Common Data Model		
Workflows		

Explanation:

Box 1: Microsoft Power Platform

Power Platform combines the robust power of PowerApps, PowerBI, and Microsoft Flow into one powerful business application platform ?providing quick and easy app building and data insights. Each component of the Microsoft Power Platform is built on the Common Data Service for Apps. Each component is dynamic by itself, but brilliant and masterful when combined.

The Microsoft Power platform brings all your data together into a common data model.

Box 2: Entities

An entity is a set of records used to store data, similar to how a table stores data within a database.

Reference:

<https://community.dynamics.com/365/b/encloud9dynamicss365crm/posts/an-introduction-to-the-microsoft-power-platform>

<https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-intro>

QUESTION 35

Drag and Drop Question

You manage the support team at a rapidly growing company.

Customers and support technicians need a better experience when logging and responding to support requests. You need more visibility into what the support technicians are doing every week.

You need to recommend tools to help the company's needs.

Which tools should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Requirement	Tool
Power Apps		Customers must be able to submit support requests by using a website.	
Microsoft Flow		Support requests must be created and stored.	
Power BI		Support technicians must be notified when a new support request is entered.	
Common Data Service		Support technicians must be able to enter a status report for work completed during the previous week by using a mobile app.	

Answer:

Tools	Answer Area	Requirement	Tool
		Customers must be able to submit support requests by using a website.	Power BI
		Support requests must be created and stored.	Common Data Service
		Support technicians must be notified when a new support request is entered.	Microsoft Flow
		Support technicians must be able to enter a status report for work completed during the previous week by using a mobile app.	Power Apps

QUESTION 36

Hotspot Question

You are building Power Apps apps that use both Dynamics 365 Sales and Microsoft 365.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input checked="" type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Box 1: No

When you offer your application for use by other companies through a purchase or subscription, you make your application available to customers within their own Azure tenants. This is known as creating a multi-tenant application.

Box 2: No

Reference:<https://docs.microsoft.com/en-us/azure/active-directory/manage-apps/isv-sso-content>**QUESTION 37**

Hotspot Question

A company plans to implement Power Platform apps. The company does not plan to use any development tools or plug-ins.

Which actions can you perform?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can synchronize account names with a third-party proprietary database.	<input type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can synchronize account names with a third-party proprietary database.	<input checked="" type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365.

Reference:

<https://docs.microsoft.com/en-us/learn/powerplatform/>

QUESTION 38

Drag and Drop Question

A company uses Power Apps.

You need to perform administrative tasks for the company.

Which admin centers should you use? To answer, drag the appropriate admin centers to the correct requirements. Each admin center may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Admin centers	Answer Area	Requirement	Admin center
Azure Active Directory			
Dynamics 365 Admin center	Create user accounts for Power Apps.		Admin center
Power Apps Admin center	Assign the Environment Maker role to a user.		Admin center
Power BI Admin portal			

Answer:

Admin centers	Answer Area	Requirement	Admin center
Dynamics 365 Admin center	Create user accounts for Power Apps.		Azure Active Directory
Power BI Admin portal	Assign the Environment Maker role to a user.		Power Apps Admin center

Explanation:

Box 1: Azure Active Directory

Create the company users in the Azure Active Directory.

Box 2: Power Apps admin center

In the Power Apps Admin center, manage environments that you've created and those for which you have been added to the Environment Admin or System Administrator role. From the admin center, you can perform these administrative actions:

Create environments.

Rename environments.

Add or remove a user or group from either the Environment Admin or Environment Maker role.

Etc.

Incorrect Answers:

Use the Dynamics 365 admin center to review the status of your apps and solutions, apply updates, and manage your Dynamics 365 instances, solutions, and apps.

The Power BI admin portal enables you to manage a Power BI tenant for your organization. The portal includes items such as usage metrics, access to the Microsoft 365 admin center, and settings

Note: You use the Microsoft 365 admin center to create user accounts for every user who needs access to model-driven apps in Dynamics 365, such as Dynamics 365 Sales and Customer Service.

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/environments-administration><https://docs.microsoft.com/en-us/dynamics365/marketing/dynamics-365-admin-center><https://powerapps.microsoft.com/sv-se/blog/introducing-admin-center-for-powerapps/>**QUESTION 39**

Hotspot Question

A rapidly growing company wants to empower users to build apps, automate business processes, and analyze data without requiring IT expertise or development skills and without increasing IT expenses and dependencies.

You need to recommend tools so that users can accomplish specific tasks.

Which tools should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Application
Build automatic workflows that access multiple data sources.	<input type="checkbox"/> AI Builder <input type="checkbox"/> Power Apps <input type="checkbox"/> Microsoft Flow <input type="checkbox"/> Azure Functions <input type="checkbox"/> Power BI
Create custom apps that address specific business needs.	<input type="checkbox"/> AI Builder <input type="checkbox"/> Power Apps <input type="checkbox"/> Microsoft Flow <input type="checkbox"/> Azure Functions <input type="checkbox"/> Power BI
Design insightful data visualizations.	<input type="checkbox"/> AI Builder <input type="checkbox"/> Power Apps <input type="checkbox"/> Microsoft Flow <input type="checkbox"/> Azure Functions <input type="checkbox"/> Power BI

Answer:

Answer Area

Scenario	Application					
Build automatic workflows that access multiple data sources.	<table border="1"><tr><td>AI Builder</td></tr><tr><td>Power Apps</td></tr><tr style="background-color: #90EE90;"><td>Microsoft Flow</td></tr><tr><td>Azure Functions</td></tr><tr><td>Power BI</td></tr></table>	AI Builder	Power Apps	Microsoft Flow	Azure Functions	Power BI
AI Builder						
Power Apps						
Microsoft Flow						
Azure Functions						
Power BI						
Create custom apps that address specific business needs.	<table border="1"><tr><td>AI Builder</td></tr><tr style="background-color: #90EE90;"><td>Power Apps</td></tr><tr><td>Microsoft Flow</td></tr><tr><td>Azure Functions</td></tr><tr><td>Power BI</td></tr></table>	AI Builder	Power Apps	Microsoft Flow	Azure Functions	Power BI
AI Builder						
Power Apps						
Microsoft Flow						
Azure Functions						
Power BI						
Design insightful data visualizations.	<table border="1"><tr><td>AI Builder</td></tr><tr><td>Power Apps</td></tr><tr><td>Microsoft Flow</td></tr><tr><td>Azure Functions</td></tr><tr style="background-color: #90EE90;"><td>Power BI</td></tr></table>	AI Builder	Power Apps	Microsoft Flow	Azure Functions	Power BI
AI Builder						
Power Apps						
Microsoft Flow						
Azure Functions						
Power BI						

Explanation:

Box 1: Microsoft Flow

Microsoft Flow, now called Power Automate, is cloud-based software that allows employees to create and automate workflows and tasks across multiple applications and services without help from developers.

Box 2: Power Apps

PowerApps is a suite of apps, services, connectors and data platform that provides a rapid application development environment to build custom apps for your business needs.

Box 3: Power BI

Power BI is a business analytics solution that lets you visualize your data and share insights across your organization, or embed them in your app or website. Connect to hundreds of data sources and bring your data to life with live dashboards and reports.

Reference:

<https://docs.microsoft.com/en-us/powerapps/powerapps-overview>

QUESTION 40

Hotspot Question

A company plans to use Power BI to visualize data from business systems.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can display data aggregates and raw data in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can display related data from Dynamics 365 Customer Engagement and Excel in the same Power BI report.	<input type="radio"/>	<input type="radio"/>
You create a Power App to supply data for a Power BI report. You can modify the data directly in the report.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
You can display data aggregates and raw data in a Power BI report.	<input checked="" type="radio"/>	<input type="radio"/>
You can display related data from Dynamics 365 Customer Engagement and Excel in the same Power BI report.	<input type="radio"/>	<input checked="" type="radio"/>
You create a Power App to supply data for a Power BI report. You can modify the data directly in the report.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Box 1: Yes

The following list provides advantages to using aggregations:

Query performance over big data -as users interact with visuals on Power BI reports, DAX queries are submitted to the dataset. Boost query speeds by caching data at the aggregated level, using a fraction of the resources required at the detail level. Unlock big data in a way that would otherwise be impossible.

Box 2: No

You can connect to model-driven apps in Dynamics 365 with Power BI Desktop to create custom reports and dashboards for use with the Power BI service.

You can use similar steps to connect to model-driven apps in Dynamics 365 using Office Excel Power Query by selecting From Other Sources on the Power Query tab in Excel.

Box 3: Yes

Using the PowerApps custom visual, you will be able to pass context aware data to a PowerApps app which updates in real time as you make changes to your report.

Reference:

<https://docs.microsoft.com/en-us/power-bi/desktop-aggregations>

<https://docs.microsoft.com/en-us/power-platform/admin/use-power-bi>

<https://powerapps.microsoft.com/sv-se/blog/powerbi-powerapps-visual/>

QUESTION 41

Hotspot Question

You are creating a model-driven Power Apps app. You want to ensure that the app can be used by individuals who have vision impairments.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.	<input type="radio"/>	<input type="radio"/>
Only model-driven Power Apps have support for using a screen reader without the need for a connector.	<input type="radio"/>	<input type="radio"/>
The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.	<input checked="" type="radio"/>	<input type="radio"/>
Only model-driven Power Apps have support for using a screen reader without the need for a connector.	<input type="radio"/>	<input checked="" type="radio"/>
The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Box 1: Yes

You can use keyboard shortcuts in PowerApps. Keyboard shortcuts give you an alternate way to do common tasks instead of using your mouse or tapping with your finger. They help in seamless navigation of the interface.

Box 2: No

The following software combinations are the supported recommendations for consuming PowerApps with a screen reader:

Windows: Microsoft Edge / Narrator

macOS: Safari / VoiceOver

Android: PowerApps app / Talkback

iOS: PowerApps app / VoiceOver

Box 3: Yes

Users who have vision, hearing, or other impairments can use your canvas app more easily and successfully if you consider accessibility as you design how the app looks and behaves. If you're not sure how to make your app more accessible, you can run the Accessibility checker in PowerApps Studio. This tool not only finds potential accessibility issues but also explains why each might be a potential problem for users who have a specific disability and offers suggestions on how to resolve each issue. The Accessibility checker detects screen-reader and keyboard issues for you, and you can find information about how to fix color-contrast issues by using accessible colors.

Reference:

<https://docs.microsoft.com/en-us/powerapps/user/keyboard-shortcuts>

<https://docs.microsoft.com/en-us/powerapps/user/screen-reader>

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/accessibility-checker>

QUESTION 42**Drag and Drop Question**

A bank uses Power Platform apps and flows to support business processes. The company would like to use historical client data to predict whether a client's loan application is likely to be approved or rejected.

You need to use AI Builder to implement the solution.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
Publish the model.	
Export data into AI Builder.	
Train the model.	
Import data into Common Data Service.	
Use the model in PowerApps or Microsoft Flow.	

Answer:

Actions	Answer area
Export data into AI Builder.	Import data into Common Data Service.
	Train the model.
	Publish the model.
➡	Use the model in PowerApps or Microsoft Flow.
⬅	

**Explanation:**

Step 1: Import data into Common Data Service.

AI Builder requires the use of Common Data Service, which is the data platform for PowerApps and allows you to store and manage business data. Common Data Service is the platform on which Dynamics 365 apps are built so if you're a Dynamics 365 customer, your data is already in Common Data Service.

Step 2: Train the model

Step 3: Publish the model

The last step is to publish your model.

Step 4: Use the model in PowerApps or Microsoft Flow.

Reference:

<https://docs.microsoft.com/en-us/ai-builder/build-model>

QUESTION 43

Drag and Drop Question

A company plans to implement solutions that use Common Data Service as a data storage. You need to recommend features to meet the company's needs.

Which features should you recommend? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Features	Answer Area	Requirement	Feature
business rules		Validate data across multiple fields and entities regardless of the app used to create data.	Feature
business process flows		Create visual guides to ensure that users enter data and perform tasks in a consistent manner.	Feature
Common Data Model		Accelerate development by using a standard set of entities for the most common scenarios.	Feature

Answer:

Features	Answer Area	Requirement	Feature
		Validate data across multiple fields and entities regardless of the app used to create data.	business rules
		Create visual guides to ensure that users enter data and perform tasks in a consistent manner.	business process flows
		Accelerate development by using a standard set of entities for the most common scenarios.	Common Data Model

Explanation:**Box 1: business rules**

You can create business rules and recommendations to apply logic and validations without writing code or creating plug-ins. Business rules provide a simple interface to implement and maintain fast-changing and commonly used rules.

Box 2: business process flows

Flows Power Automate includes several types of processes, each designed for a different purpose:

Automated flows. Create a flow that performs one or more tasks automatically after it's triggered by an event.

Button flows. Perform repetitive tasks simply by tapping a button on your mobile device.

Scheduled flows. Create a flow that performs one or more tasks on a schedule such as once a day, on a specific date, or after a certain time.

Business process flows. Ensure that people enter data consistently and follow the same steps every time they work in an app by creating a business process flow. Workflows and actions.

Dynamics 365 customizers may be familiar with the classic Common Data Service processes, which are workflows and actions.

Box 3: Common Data Model

Model-driven app design is a component-focused approach to app development. Model-driven app design doesn't require code and the apps you make can be simple or very complex. Unlike canvas app development where the designer has complete control over app layout, with model-driven apps much of the layout is determined for you and largely designated by the components you add to the app.

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/guide-staff-through-common-tasks-processes>

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/model-driven-apps-overview>

overview

QUESTION 44

Hotspot Question

A business is evaluating AI Builder.

Which actions can you perform?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can use a text classification model in AI Builder to retrieve text and perform sentiment analysis for ServiceNow incidents.	<input type="radio"/>	<input type="radio"/>
You can tag Instagram posts that mention your new product.	<input type="radio"/>	<input type="radio"/>
You can send results about the number of mentions of your new product in Instagram to Power BI for inclusion on a dashboard.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can use a text classification model in AI Builder to retrieve text and perform sentiment analysis for ServiceNow incidents.	<input checked="" type="radio"/>	<input type="radio"/>
You can tag Instagram posts that mention your new product.	<input checked="" type="radio"/>	<input type="radio"/>
You can send results about the number of mentions of your new product in Instagram to Power BI for inclusion on a dashboard.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/ai-builder/create-text-classification-model>
<https://radacad.com/object-detector-app-with-ai-builder-and-power-apps>

QUESTION 45

Hotspot Question

A user is trying to understand the differences between the various ways apps can be built by using Power Apps.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can embed canvas apps in model-driven apps.	<input type="radio"/>	<input type="radio"/>
A Power Apps portal can use only one data source.	<input type="radio"/>	<input type="radio"/>
You must use Power BI to create reports in model-driven apps.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can embed canvas apps in model-driven apps.	<input checked="" type="radio"/>	<input type="radio"/>
A Power Apps portal can use only one data source.	<input type="radio"/>	<input checked="" type="radio"/>
You must use Power BI to create reports in model-driven apps.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Box 1: Yes

You can create a canvas app and then embed that within a model driven app.

Box 2: No

With the capability to build a portal in PowerApps, you can create a website for external and internal users enabling them to interact with data stored in Common Data Service.

Note: Common Data Service lets you securely store and manage data that's used by business applications. Data within Common Data Service is stored within a set of entities. An entity is a set of records used to store data, similar to how a table stores data within a database. Common Data Service includes a base set of standard entities that cover typical scenarios, but you can also

create custom entities specific to your organization and populate them with data using Power Query. App makers can then use PowerApps to build rich applications using this data.

Box 3: Yes

To get started building a report you'll need the latest version of Power BI Desktop and a PowerApps environment with the latest version of the Common Data Service.

Reference:

<https://carldesouza.com/how-to-embed-a-canvas-app-in-a-model-driven-app-in-powerapps/>

<https://docs.microsoft.com/en-us/powerapps/maker/portals/create-portal>

<https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-intro>

QUESTION 46

Hotspot Question

A user is creating their first canvas app in Power Apps.

The user does not know what types of controls they can include.

You need to recommend solutions for the user.

Which types of controls would you recommend using in Power Apps? To answer, select the appropriate control in the dialog box in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario

View the date, time, and location of upcoming internal meetings.

Create a meeting request from within the app.

Drill down into customer contact records in Dynamics 365 Sales to view a photo of a customer you are meeting.

Control

Meeting-screen template
Gallery
List box

Meeting-screen template
Gallery
List box

Image
People-screen template
Add picture

Answer:

Answer Area**Scenario**

View the date, time, and location of upcoming internal meetings.

Create a meeting request from within the app.

Drill down into customer contact records in Dynamics 365 Sales to view a photo of a customer you are meeting.

Control

Meeting-screen template
Gallery
List box

Meeting-screen template
Gallery
List box

Image
People-screen template
Add picture

Explanation:

Box 1: Gallery

A Gallery control can show multiple records from a data source, and each record can contain multiple types of data. For example, a Gallery control can show multiple contacts with each item showing contact information that includes a name, an address, and a phone number for each contact.

Box 2: Meeting-screen template

In a canvas app, add a meeting screen that lets users create and send meeting requests from their Office 365 Outlook accounts. Users can search for attendees in their org and add external email addresses. If your tenant has meeting rooms built into Outlook, users can select a location as well.

Box 3: Image

If you add one or more Image controls to your app, you can show individual images that aren't part of a data set, or you can incorporate images from records in data sources.

Incorrect Answers:

List box: A list in which the user can select one or multiple items.

With the Add picture control in PowerApps users can take photos or upload image files from their device and update the data source with this content. On a mobile device the user is presented with the device's choice dialog to choose between taking a photo or selecting one already available.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/screen-templates/meeting-screen-overview>

QUESTION 47

Hotspot Question

You are designing a Power Apps solution that allows users to upload a status report directly to the company Microsoft SharePoint project management site from their mobile device.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You should build a model-driven app in Power Apps.	<input type="radio"/>	<input type="radio"/>
You should build a canvas app in Power Apps.	<input type="radio"/>	<input type="radio"/>
Users must download and run the Power Apps mobile application to use the solution.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
You should build a model-driven app in Power Apps.	<input type="radio"/>	<input checked="" type="radio"/>
You should build a canvas app in Power Apps.	<input checked="" type="radio"/>	<input type="radio"/>
Users must download and run the Power Apps mobile application to use the solution.	<input type="radio"/>	<input type="radio"/>

Explanation:

Box 1: No

Box 2: Yes

Box 3: Yes

When you create an app, or someone shares an app with you, you can run that app on Windows, iOS, Android, or in a web browser.

References:<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/app-from-sharepoint><https://docs.microsoft.com/en-us/powerapps/user/run-app-client>**QUESTION 48**

Hotspot Question

You need to use Power Apps to meet your company's requirements.

What PowerApps feature should use for each task? To answer, select the appropriate options

from the drop-down menus.

Task	Feature
Create customized apps with full control over the user interface.	Canvas apps Model-driven apps Power Apps portals
Create apps for complex business logic involving Common Data Service.	Canvas apps Model-driven apps Power Apps portals
Create customer-facing apps that can interact with users.	Canvas apps Model-driven apps Power Apps portals

Answer:

Task	Feature
Create customized apps with full control over the user interface.	Canvas apps Model-driven apps Power Apps portals
Create apps for complex business logic involving Common Data Service.	Canvas apps Model-driven apps Power Apps portals
Create customer-facing apps that can interact with users.	Canvas apps Model-driven apps Power Apps portals

Explanation:

You should use canvas apps for highly customizable layouts. Canvas apps provide full control over user interface and how screens can interact with each other.

You should use model-driven apps for implementing complex business logic. Model-driven apps take care of the user interface part, so you only need to focus on business rules, forms, and views.

You should use Power Apps portals for a customer facing website. Power Apps portals allow you to create a customer engagement website using pre-built templates.

QUESTION 49

This question requires that you evaluate the underlined text to determine if it is correct.

You have a Power Apps app. You create a new version of the app and then publish the new version. A customer goes through the process of restoring the previous version of the app. In the Version tab for the app, you will see two versions of the app.

Review the underlined text. If it makes the statement correct, select “No change is needed.” If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. one
- C. three
- D. four

Answer: C

Explanation:

Restore a canvas app to a previous version in PowerApps.

1. Open powerapps.com, and then click or tap Apps in the left navigation bar.
2. Near the right edge, click or tap the info icon for the app that you want to restore.
3. Click or tap the Versions tab, and then click or tap Restore for the version that you want to restore.

Details • Share • Versions • Settings • Analytics (preview)					
PowerApps keeps a version history of your apps.					
VERSION	MODIFIED	MODIFIED BY	POWERAPPS RELEASE	PUBLISHED	COMMENT
2	8/20/2018 2:24:29 PM	Firstname Lastname	3.18081.19	Live	Restore Delete
1	7/9/2018 10:55:48 AM	Firstname LastName	3.18071.36		Restore Delete

4. In the confirmation dialog box, click or tap Restore.

A new version is added to your list.

Details • Share • Versions • Settings • Analytics (preview)					
PowerApps keeps a version history of your apps.					
VERSION	MODIFIED	MODIFIED BY	POWERAPPS RELEASE	PUBLISHED	COMMENT
3	8/20/2018 2:41:30 PM	Firstname Lastname	3.18071.36		Publish this version
2	8/20/2018 2:24:29 PM	Firstname Lastname	3.18081.19	Live	Restore Delete
1	7/9/2018 10:55:48 AM	Firstname Lastname	3.18071.36		Restore Delete

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/restore-an-app>

QUESTION 50

A company uses Dynamics 365 Sales. The company uses a browser-based app named Sales

Hub. You need ensure that users can access data from mobile devices.

Which app should users install?

- A. Dynamics 365 Remote Assist
- B. Dynamics 365 Finance
- C. Dynamics 365 Business Central
- D. Dynamics 365 for Phones

Answer: D

Explanation:

Use the Dynamics 365 for phones and Dynamics 365 for tablets apps for your sales, customer service, field service, and other tasks when you're on the go. With one download from your app store, you'll automatically have access to all the apps you need for your role. You will see apps with the new Unified Interface on your mobile device.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/mobile-app/dynamics-365-phones-tablets-users-guide>

QUESTION 51

You are a customer service manager.

You need to implement a Power Apps portal that allows customers to submit cases.

Which type of data source is used?

- A. Dynamics 365 Connector
- B. Microsoft SharePoint
- C. Microsoft Azure Storage
- D. Common Data Service

Answer: B

Explanation:

SharePoint can be set up to setup customer feedback.

Note: The PowerApp uses Finance and Operations connector to grab sales order information and SharePoint connector to connect and write the data to SharePoint list.

Reference:

<https://powerapps.microsoft.com/en-us/blog/scenario-2-collect-customer-feedback-in-sharepoint-after-order-delivery/>

QUESTION 52

A distribution company has multiple warehouses.

Tax rates charged on sales orders need to be calculated based on locality and region.

You need to recommend a cost-effective solution that can be implemented quickly.

What should you recommend?

- A. Check AppSource for a tax add-on.
- B. Create alerts in Dynamics 365 Finance for tax table changes.
- C. Implement the Common Data Model.

- D. Run a Power BI report.
- E. Write scripts and code tax updates.

Answer: B**Explanation:** Reference:

<https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/indirect-taxes-overview>

QUESTION 53

You need to implement Microsoft Business Applications along with the Microsoft Power platform.

Which three Microsoft products are part of the Power platform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Microsoft Power Apps
- B. Azure Active Directory
- C. Microsoft Flow
- D. Azure Machine Learning
- E. Microsoft Power BI

Answer: ACE**Explanation:**

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365.

Reference:

<https://docs.microsoft.com/en-us/learn/powerplatform/>

QUESTION 54

A company is evaluating ways that they can implement AI Builder.

For which two scenarios can you use AI Builder? Each correct selection presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Send emails to all al users who subscribe to a service.
- B. Synchronize data from an external database.
- C. Collect data from several data sources and display a dashboard that shows trending data.
- D. Interpret images and perform an action on the image.

Answer: BD**Explanation:**

<https://powerapps.microsoft.com/en-us/blog/introducing-ai-builder-for-powerplatform/>

QUESTION 55

A company plans to use AI Builder to help improve business performance.

You need to determine which AI Models are available for use.

Which three types of models can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. linear regression
- B. binary classification
- C. object detection
- D. anomaly detection
- E. text classification

Answer: BCE

Explanation:

<https://carldesouza.com/using-the-ai-builder-in-the-microsoft-power-platform-for-binary-classification/>

QUESTION 56

A company uses Microsoft 365 and Dynamics 365 Sales. The company does not have any developers on its staff.

You need to explain to the executives the benefits of using Power Platform apps.

What are two benefits? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Users can send emails from Dynamics 365 Sales to their personal email addresses.
- B. Users can create Power Apps to create apps for different departments.
- C. Users can use Power Automate to share information between Microsoft 365 and Dynamics 365 Sales.
- D. The company must unify all the mobile devices to one vendor.

Answer: BC

QUESTION 57

What is a benefit of deploying Microsoft 365 and Dynamics 365 apps in the same tenant?

- A. You do not need to manually back up data.
- B. Both will use the same time zone.
- C. You can use Power BI to display data that comes from both environments.
- D. You can implement Single Sign-On (SSO).

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/power-platform/admin/use-power-bi>

QUESTION 58

A company runs a call center to handle customer support inquiries.

The company tracks metrics including the number of incoming calls, call resolution rates, and escalations. The company wants to display the metrics on a shared screen that is visible to all call center staff.

You need to recommend a solution for the company.

Which Power Platform feature should you recommend?

- A. AI Builder
- B. Power Automate
- C. Power Apps
- D. Power BI

Answer: D

QUESTION 59

You are creating Power BI reports.

You need to choose which filters you can use for reports.

Which three types of filters can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. drill-down
- B. automatic
- C. database
- D. manual
- E. external

Answer: ABD

Explanation:

<https://docs.microsoft.com/en-us/power-bi/power-bi-report-filter-types>

QUESTION 60

A manufacturing company uses Internet of Things (IoT) devices to monitor the temperature in different parts of their warehouse.

The current IoT monitoring software is extremely outdated and is not user friendly.

You need to view near-real time information from the IoT devices in Power BI Service dashboards.

Which tool should you use?

- A. Scheduled refresh dataset
- B. Streaming dataset
- C. Content Pack dataset
- D. Power BI dataflows
- E. Quick Insights

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/power-bi/service-real-time-streaming>

<https://powerbi.microsoft.com/en-us/blog/using-power-bi-real-time-dashboards-to-display-iot-sensor-data-a-step-by-step-tutorial/>

QUESTION 61

This question requires that you evaluate the underlined text to determine if it is correct.

You have a Power BI report with a page named RevReceived. The page shows revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue. To accomplish this task, you modify the RevReceived page.

Review the underlined text. If it makes the statement correct, "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. duplicate the RevReceived page.
- C. import the RevReceived page.
- D. copy the visuals from RevReceived to a new page.

Answer: B

Explanation:

https://www.tutorialspoint.com/power_bi/power_bi_quick_guide.htm

QUESTION 62

You create a set of dashboards and reports for a project team that combines data from different sources in Power BI. Some of the data is considered sensitive.

You need to distribute the dashboards and reports securely to the team.

What should you create?

- A. a custom data connector
- B. a published app
- C. a Microsoft flow
- D. a Power BI workspace

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/power-bi/service-how-to-collaborate-distribute-dashboards-reports>

QUESTION 63

You are using Dynamics 365 Sales.

You need to pull data into a Power BI report for your team. The City and State columns must be combined to form one column on the report.

Which function would you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use Power Query to merge columns.
- B. Import the data.
- C. Export data to Microsoft Excel.

- D. Create a view.

Answer: A

Explanation:

<https://docs.microsoft.com/en-us/power-bi/desktop-shape-and-combine-data>

QUESTION 64

A carpet cleaning company uses Dynamics 365 Sales.

The process for entering customer information during onsite sales calls is very complicated. The company wants a simplified screen that allows salespeople to capture the customer name, phone number, and other information while speaking to the customer.

You need to recommend a solution that works on various types of mobile devices.

What should you recommend?

- A. Common Data Service
- B. Microsoft Flow
- C. AI Builder
- D. Canvas app
- E. Power BI

Answer: D

Explanation:

<https://powerapps.microsoft.com/en-us/build-powerapps/>

QUESTION 65

You create a Power Apps canvas app.

You need to ensure that your coworkers can run the app.

What should you do?

- A. Share the app.
- B. Send the URL for the app to coworkers.
- C. Add a license for the app.
- D. Create a Flow for the app.

Answer: A

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/share-app>

QUESTION 66

A company uses Microsoft 365, Power Platform, and Dynamics 365. You do not assign permissions to any licensed users.

Users are able to create and edit Power Apps canvas apps.

In which environment are users creating and editing the apps?

- A. Production
- B. Default
- C. Sandbox

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/power-platform/admin/working-with-environments>

QUESTION 67

A company is creating a canvas app to display data from a legacy system that is located on the company's internal network.

You need to connect to the data.

What should you use?

- A. custom connector
- B. content pack
- C. data gateway
- D. Power Automate

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/gateway-management>

QUESTION 68

You are creating a canvas app.

You need to configure the app.

Which two objects are provided by the connector? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. customizations
- B. data sources
- C. actions
- D. tables

Answer: CD

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections-list>

QUESTION 69

A company has a website. The website includes a form that allows the company to collect information about leads.

You need to set up an automated workflow to create leads in Dynamics 365 Sales when leads are created on the company's custom website.

What should you create?

- A. Task Flow
- B. Power Automate flow
- C. Dynamics 365 workflow
- D. Business Process Flow

Answer: B

Explanation:

<https://trellispoint.com/create-crm-leads-using-microsoft-flow/>

QUESTION 70

A company builds and sells residential apartments. The company uses Dynamics 365 Sales to manage sales opportunities.

Management must receive notifications on their mobile devices when sales opportunities are created.

You need to select recommend Power Platform components to address the requirements.

Which two components should you recommend? Each correct answer presents part of the solution.

NOTE: Each selection is worth one point.

- A. Common Data Service connector
- B. Power BI
- C. Power Automate
- D. AI Builder

Answer: C

Explanation:

<https://www.powerobjects.com/blog/2019/04/05/flow-approval-process/>

QUESTION 71

A company uses Microsoft 365, SharePoint Online, and Dynamics 365 Sales.

You need to recommend tools to build a solution that meets the following requirements:

- Synchronize data from an external Microsoft SQL Server instance.
- Send out of the box report automatically to specific company executives.
- Ensure that opportunities over a specified amount are approved by a sales manager.

Which two tools or components should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Microsoft Excel
- B. Microsoft Word

- C. Power BI
- D. Common Data Service
- E. Microsoft Flow

Answer: DE**Explanation:**

<https://docs.microsoft.com/en-us/power-platform/admin/data-integrator>
<https://www.powerobjects.com/blog/2019/04/05/flow-approval-process/>

QUESTION 72

A company is considering implementing Power Platform.

For which three scenarios should you consider implementing Power Apps portals? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. a customer support website that includes knowledge search and support for document uploads
- B. a public website that supports multi-lingual communities with forums and blogs support
- C. an online store with e-commerce requirements including payment processing
- D. a secure website for vendors accessing data stored in Common Data Service
- E. an internal website for employees to access selected data from Dynamics 365 Finance

Answer: ABE**Explanation:**

<https://docs.microsoft.com/en-us/powerapps/maker/portals/portal-templates>

QUESTION 73

Hotspot Question

A company plans to create Power Platform apps that consume industry-standard and proprietary data sources.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Custom connector cannot be used if a standard connector for the service is available.	<input type="radio"/>	<input type="radio"/>
Custom connectors are supported in instant flows only.	<input type="radio"/>	<input type="radio"/>
Standard and custom connectors cannot be mixed within the same flow or app.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Custom connector cannot be used if a standard connector for the service is available.	<input checked="" type="radio"/>	<input type="radio"/>
Custom connectors are supported in instant flows only.	<input type="radio"/>	<input checked="" type="radio"/>
Standard and custom connectors cannot be mixed within the same flow or app.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections-list>

QUESTION 74

Hotspot Question

A company is evaluating Power Platform and has questions about the role that Common Data Service plays in using Power Apps and Power Automate.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Model-driven apps require a Common Data Service database.	<input type="radio"/>	<input checked="" type="radio"/>
A flow instance can only access one Common Data Service database.	<input checked="" type="radio"/>	<input type="radio"/>
Canvas apps require a Common Data Service database.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Model-driven apps require a Common Data Service database.	<input checked="" type="radio"/>	<input type="radio"/>
A flow instance can only access one Common Data Service database.	<input checked="" type="radio"/>	<input type="radio"/>
Canvas apps require a Common Data Service database.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 75

Hotspot Question

A company plans to create a Common Data Service environment.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can create a Common Data Service environment in the Power Platform Admin center.	<input checked="" type="radio"/>	<input type="radio"/>
You must enable data encryption after you create a Common Data Service environment.	<input checked="" type="radio"/>	<input type="radio"/>
You can control security roles and privileges in a Common Data Service Environment from the Power Apps Admin center.	<input checked="" type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can create a Common Data Service environment in the Power Platform Admin center.	<input checked="" type="radio"/>	<input type="radio"/>
You must enable data encryption after you create a Common Data Service environment.	<input type="radio"/>	<input checked="" type="radio"/>
You can control security roles and privileges in a Common Data Service Environment from the Power Apps Admin center.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/power-platform/admin/create-database>

<https://docs.microsoft.com/en-us/power-platform/admin/database-security>

QUESTION 76

Hotspot Question

A company needs to create several workflows and applications to help streamline their sales operations.

You need to determine which applications are appropriate for given scenarios.

Which applications should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Application				
Create no-code workflows that use different systems.	<table border="1"><tr><td>Azure Logic Apps</td></tr><tr><td>Power Apps</td></tr><tr><td>Power Automate</td></tr><tr><td>Dynamics 365 workflows</td></tr></table>	Azure Logic Apps	Power Apps	Power Automate	Dynamics 365 workflows
Azure Logic Apps					
Power Apps					
Power Automate					
Dynamics 365 workflows					
Build a no-code mobile application.	<table border="1"><tr><td>Azure Logic Apps</td></tr><tr><td>Power Apps</td></tr><tr><td>Power Automate</td></tr><tr><td>Dynamics 365 workflows</td></tr></table>	Azure Logic Apps	Power Apps	Power Automate	Dynamics 365 workflows
Azure Logic Apps					
Power Apps					
Power Automate					
Dynamics 365 workflows					
Administer your workflow in Microsoft Azure.	<table border="1"><tr><td>Azure Logic Apps</td></tr><tr><td>Power Apps</td></tr><tr><td>Power Automate</td></tr><tr><td>Dynamics 365 workflows</td></tr></table>	Azure Logic Apps	Power Apps	Power Automate	Dynamics 365 workflows

QUESTION 77

Hotspot Question

A user is starting to learn about Power Apps.

Which objects should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

A Power Apps app can call a

connector
flow
gateway
solution

Actions and triggers are properties of a

connector
flow
gateway
solution

Answer:**Answer Area**

A Power Apps app can call a

connector
flow
gateway
solution

Actions and triggers are properties of a

connector
flow
gateway
solution

<https://docs.microsoft.com/en-us/powerapps/powerapps-overview>
<https://docs.microsoft.com/en-us/power-automate/getting-started>

QUESTION 78

Hotspot Question

You are a regional sales manager for a large internet retailer. You create a series of Power BI reports and dashboards to help sales associates be more productive and increase sales.

Sales are not increasing as expected.

You need to determine if the new reports are being used and send emails to sales associates to provide guidance on how to use the reports and dashboards.

Which features should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area**Requirement**

Send an email to the sales associates on a predetermined schedule.

	▼

<https://docs.microsoft.com/en-us/power-bi/service-usage-metrics>

QUESTION 79

Drag and Drop Question

A company plans to implement Power BI to analyze retail operations data. You need to recommend solutions for the company.

Which Power BI components should the company use? To answer, drag the appropriate Power BI components to the correct requirements. Each Power BI component may be used once, more

than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Power BI components	Answer Area	Requirement	Power BI component
reports		Allow users to set and receive alerts when data changes beyond specified limits.	
workspaces		View and filter data and export data to Microsoft Excel for further manipulation and analysis.	
dashboards			
dataset			

Answer:

Power BI components	Answer Area	Requirement	Power BI component
reports		Allow users to set and receive alerts when data changes beyond specified limits.	
dashboards		View and filter data and export data to Microsoft Excel for further manipulation and analysis.	
			workspaces
			dataset

QUESTION 80

Drag and Drop Question

You create a Power BI dashboard.

Match each option to its function. To answer, drag the appropriate option from the column on the left to its function on the right. Each option may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Products	Answer Area	Requirement	Product
Share		Ensure that coworkers can see the dashboard.	
Embed		Display data from Microsoft Excel in the dashboard.	
Get Data		Add a report tile to the dashboard.	
Pin			
Import			

Answer:

Products	Answer Area	
	Requirement	Product
Embed	Ensure that coworkers can see the dashboard.	Share
	Display data from Microsoft Excel in the dashboard.	Get Data
Import	Add a report tile to the dashboard.	Pin

Explanation:

<https://docs.microsoft.com/en-us/power-bi/service-set-data-alerts>

<https://docs.microsoft.com/en-us/power-bi/service-analyze-in-excel>

<https://docs.microsoft.com/en-us/power-bi/service-dashboard-pin-tile-from-report>

QUESTION 81

Drag and Drop Question

A company plans to implement Power Apps in a Power Platform environment.

You need to implement other required components.

Match each option to its function. To answer, drag the appropriate option from the column on the left to its function on the right. Each option may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Products	Answer Area	
	Function	Product
Microsoft Azure	Implement user authentication.	
custom connector		
Microsoft Flow	Send data to a Microsoft OneNote notebook in the same tenant.	
model-driven app		
canvas app		

Answer:

Answer Area		
Products	Function	Product
custom connector	Implement user authentication.	Microsoft Azure
model-driven app	Send data to a Microsoft OneNote notebook in the same tenant.	Microsoft Flow
canvas app		

Explanation:

<https://powerapps.microsoft.com/en-us/blog/implementing-role-based-permission/>
<https://www.encodedbusiness.com/blog/powerapps-flow-can/>

QUESTION 82

Drag and Drop Question

A company plans to create canvas apps.

What is the minimum number of connectors required? To answer, drag the appropriate number of connectors to the correct drop scenarios. Each number of connectors may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Number of connectors	Answer Area	Scenario	Number of connectors
0		Synchronize data with three data sources that use different proprietary database formats.	
1		Create three Power Apps apps that each display data from a Microsoft SharePoint list.	
2			
3		Create three Flows that each copy data to Microsoft Azure Data Lake on different schedules.	

Answer:

Number of connectors	Answer Area	Number of connectors
0	Scenario Synchronize data with three data sources that use different proprietary database formats.	1
1	Create three Power Apps apps that each display data from a Microsoft SharePoint list.	3
2		
3	Create three Flows that each copy data to Microsoft Azure Data Lake on different schedules.	3

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections-list>

<https://docs.microsoft.com/en-us/connectors/connectors>

QUESTION 83

Drag and Drop Question

A company is considering implementing PowerApps to help manage business processes. Users are trying to understand the purposes and benefits of PowerApps components.

Match each benefit to its tool. To answer, drag the appropriate benefit from the column on the left to its tool on the right. Each benefit may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Benefit	Tool
connectors		Easy data integration	
canvas apps		Low code / no code across applications	
AI Builder			
Power Automate		Easy to customize front end	
portals			

Answer:

Answer Area		
Tools	Benefit	Tool
Power Automate	Easy data integration	connectors
portals	Low code / no code across applications	AI Builder
	Easy to customize front end	canvas apps

Explanation:

<https://docs.microsoft.com/en-us/power-platform/admin/data-integrator>
<https://powerapps.microsoft.com/en-us/blog/create-business-apps-using-powerapps-and-azure-functions/>

QUESTION 84

Drag and Drop Question

A company plans to build new apps for the business to allow employees to work more efficiently.

You need to recommend the appropriate types of Power Apps to meet the company's requirements.

To answer, drag the appropriate app types to the correct requirements. Each app type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer Area		
App types	Requirement	App type
model-driven	Build mobile apps that use cameras and location data.	
portals	Give external users secure access to your data.	
canvas		
AI Builder		

Answer:

Answer Area		
App types	Requirement	App type
model-driven	Build mobile apps that use cameras and location data.	canvas
AI Builder	Give external users secure access to your data.	portals

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/getting-started>
<https://docs.microsoft.com/en-us/powerapps/maker/portals/overview>

QUESTION 85

Drag and Drop Question

A company is building a model-driven app.

You need to create and configure the objects needed for the app. Which component categories should you use? To answer, drag the appropriate component categories to the correct objects. Each component category may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer Area		
Component categories	Object	Component category
UI	Relationship	
Data	Form	
Logic	Business rule	
Visualization	View	

Answer:

Answer Area		
Component categories	Object	Component category
UI	Relationship	Data
Data	Form	UI
Logic	Business rule	Logic
Visualization	View	UI

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/model-driven-app-components>

QUESTION 86

Hotspot Question

You are creating a canvas app that will be used in several countries/regions.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Canvas app authoring environment will adapt to the language setting of the author.	<input type="radio"/>	<input type="radio"/>
When running a canvas app on a mobile device, the app adopts the app author's language.	<input type="radio"/>	<input type="radio"/>
Numbers and dates in Power Apps app automatically conform to the regional and language settings for a user's device.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Canvas app authoring environment will adapt to the language setting of the author.	<input checked="" type="radio"/>	<input type="radio"/>
When running a canvas app on a mobile device, the app adopts the app author's language.	<input checked="" type="radio"/>	<input type="radio"/>
Numbers and dates in Power Apps app automatically conform to the regional and language settings for a user's device.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/global-apps>

QUESTION 87

Hotspot Question

A company plans to build Power Apps portals.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You must use standard templates for building portals.	<input type="radio"/>	<input checked="" type="radio"/>
You can test portals in non-production environments and then migrate the portals into production environments.	<input checked="" type="radio"/>	<input type="radio"/>
When transitioning to the new version of a portal, you can display a customizable maintenance page until the new portal is ready to be used.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You must use standard templates for building portals.	<input checked="" type="radio"/>	<input type="radio"/>
You can test portals in non-production environments and then migrate the portals into production environments.	<input checked="" type="radio"/>	<input type="radio"/>
When transitioning to the new version of a portal, you can display a customizable maintenance page until the new portal is ready to be used.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/portals/overview>

<https://docs.microsoft.com/en-us/powerapps/maker/portals/admin/migrate-portal-configuration>

<https://docs.microsoft.com/en-us/powerapps/maker/portals/admin/enable-maintenance-mode>

QUESTION 88

Hotspot Question

A company plans to synchronize data between Dynamics 365 Supply Chain management and Dynamics 365 Sales.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can implement a process-based integration by using the Data Integration feature.	<input type="radio"/>	<input checked="" type="radio"/>
You can use Microsoft Azure Data Migration to synchronize data between the apps.	<input checked="" type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can implement a process-based integration by using the Data Integration feature.	<input checked="" type="radio"/>	<input type="radio"/>
You can use Microsoft Azure Data Migration to synchronize data between the apps.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/business-applications-release-notes/april19/cdm-data-integration/cds-data-integrator>

QUESTION 89

Hotspot Question

You plan to send an email notification to a user when a new file is placed in a specific folder in OneDrive for Business.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can create a flow without writing a single line of code and deploy the flow to a production environment.	<input type="radio"/>	<input checked="" type="radio"/>
You cannot add additional actions to the built-in Power Automate templates.	<input checked="" type="radio"/>	<input type="radio"/>
You can view the code that implements workflow actions and triggers without installing additional software.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can create a flow without writing a single line of code and deploy the flow to a production environment.	<input checked="" type="radio"/>	<input type="radio"/>
You cannot add additional actions to the built-in Power Automate templates.	<input type="radio"/>	<input checked="" type="radio"/>
You can view the code that implements workflow actions and triggers without installing additional software.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/power-automate/getting-started>
<https://docs.microsoft.com/en-us/power-automate/multi-step-logic-flow>

QUESTION 90

Hotspot Question

For which scenarios can you use Power Automate?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Notify team members when a response is recorded in a form in Microsoft Forms.	<input type="radio"/>	<input checked="" type="radio"/>
When email is received, save email attachments to OneDrive for Business.	<input checked="" type="radio"/>	<input type="radio"/>
Receive notifications when negative comments about the company are posted on Twitter.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Notify team members when a response is recorded in a form in Microsoft Forms.	<input checked="" type="radio"/>	<input type="radio"/>
When email is received, save email attachments to OneDrive for Business.	<input checked="" type="radio"/>	<input type="radio"/>
Receive notifications when negative comments about the company are posted on Twitter.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://flow.microsoft.com/en-us/galleries/public/templates/b923bb04bda11e78896d10a96d3fac3/notify-the-team-when-a-new-response-is-submitted/>
<https://flow.microsoft.com/en-us/galleries/public/templates/65ceb79430ef4956a0855fbe09249cdf/save-office-365-email-attachments-to-onedrive-for-business/>
<https://flow.microsoft.com/en-us/blog/get-notified-of-negative-posts/>

QUESTION 91

Drag and Drop Question

A project deadline is approaching. The project manager reports that there are still a number of critical tasks that are not complete.

You need to implement Power Automate to help streamline processes.

Which types of flows should you use? To answer, drag the appropriate flow types to the correct requirement. Each flow type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Flow types	Answer Area	Requirement	Flow type
automated		Ensure that all of the steps for completing tasks are consistently followed by all team members.	
instant		Allow users to send an email to the project lead whenever a task is completed.	
scheduled		Automatically send a list of completed tasks at the end of each week.	
business process			

Answer:

Flow types	Answer Area	Requirement	Flow type
instant		Ensure that all of the steps for completing tasks are consistently followed by all team members.	business process
		Allow users to send an email to the project lead whenever a task is completed.	automated
		Automatically send a list of completed tasks at the end of each week.	scheduled

Explanation:

<https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview>

<https://docs.microsoft.com/en-us/power-automate/get-started-logic-flow>

<https://docs.microsoft.com/en-us/power-automate/run-scheduled-tasks>

QUESTION 92

Drag and Drop Question

A company provides on-site architectural consulting services to residential and business customers. The company wants to implement a simple alert system where a consultant can press a button on their mobile device to send the user's location to the company as a text notification.

You need to build a button flow that sends the notification.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Add a new step to the flow.	
Add a trigger.	
Select a connector and action to send text notifications.	
Set the actions properties.	
Save the flow.	

Answer:

Actions**Answer Area**

Add a new step to the flow.

Select a connector and action to send text notifications.

Set the actions properties.

Add a trigger.

Save the flow.

Explanation:

<https://docs.microsoft.com/en-us/power-automate/button-flow-with-user-input-tokens#main>

QUESTION 93

Hotspot Question

A company is using Power Automation to automate business processes.

You need to recommend triggers for Instant flows.

What trigger types should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area**Requirement****Trigger type**

Run a flow when the user presses a button in a canvas app.

PowerApps
for a selected row
manually trigger a flow
for a selected file (OneDrive for a Business)

Run a flow when user presses a button in the mobile Flow app.

PowerApps
for a selected row
manually trigger a flow
for a selected file (SharePoint)

Answer:

Answer Area

Requirement	Trigger type
Run a flow when the user presses a button in a canvas app.	<div style="border: 1px solid black; padding: 5px;">PowerApps for a selected row manually trigger a flow for a selected file (OneDrive for a Business)</div>
Run a flow when user presses a button in the mobile Flow app.	<div style="border: 1px solid black; padding: 5px;">PowerApps for a selected row manually trigger a flow for a selected file (SharePoint)</div>

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/using-logic-flows>
<https://www.o365duke.com/2017/07/15/flow-buttons-the-hidden-gem-of-microsoft-flow/>

QUESTION 94

Hotspot Question

A company plans to use Power Platform to build apps which address specific business challenges.

You need to recommend the appropriate types of Power Apps to use.

What should you recommend? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Tool
Field technicians need a mobile app to capture the location and the image of defective products.	<div style="border: 1px solid black; padding: 5px;">Canvas app Power Apps portal Common Data Service</div>
Sales representatives need to see different views and dashboards in the sales app.	<div style="border: 1px solid black; padding: 5px;">Canvas app Model-driven app Power Apps portal</div>
External customers need to view the progress of their service cases.	<div style="border: 1px solid black; padding: 5px;">Model-driven app Power Apps portal Common Data Service</div>

Answer:

Answer Area

QUESTION 95

A company uses Dynamics 365 Supply Chain Management and Dynamics 365 Finance.

Account data must be synchronized between the two system.

You need to ensure that the synchronized data is stored in one place.

What should you use?

- A. Azure IoT Central
- B. Azure Active Directory
- C. SQL Server
- D. Common Data Service

Answer: D

Explanation:

<https://docs.microsoft.com/en-us/power-platform/admin/data-integrator>

QUESTION 96

What is a benefit of deploying Microsoft 365 and Dynamics 365 apps in the same tenant?

- A. Use Common Data Services to connect to application data.
- B. You only need to set up groups in Microsoft 365 for permissions to all data.
- C. Users can access both Microsoft 365 and Dynamics 365 by using Single Sign-on (SSO).

Answer: A

QUESTION 97

You need to display sales orders greater than a specific threshold in a Power BI report.

What should you use?

- A. filter
- B. Power Query
- C. Common Data Service
- D. connector

Answer: A

QUESTION 98

You are a sales representative. You create a Power BI report to visualize data from a Microsoft Excel workbook.

Users need to be able to view and share the report.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Pin the report to a dashboard.
- B. Export the data.
- C. Publish the dashboard.
- D. Share the dashboard.

Answer: AD

Explanation:

<https://docs.microsoft.com/en-us/power-bi/create-reports/service-dashboard-pin-live-tile-from-report>

<https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-share-dashboards#limitations-and-considerations>

QUESTION 99

Customer-facing applications must comply with Global Data Protection Regulations (GDPR).

You need to recommend actions to help ensure GDPR compliance.

Which two features should the company use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Force a user to update security questions after a specific amount of time.
- B. Prompt a user for consent to use their personal data and record the date consented.
- C. Block users who are identified as minors.
- D. Automatically deactivate a user who has not used the portal in six months.

Answer: BC

Explanation:

https://en.wikipedia.org/wiki/General_Data_Protection_Regulation

QUESTION 100

You have a Microsoft Excel workbook that contains a list of tasks for a project. You store the file in OneDrive for Business.

You need to create a canvas app that allows team members to update the status of their tasks.

What should you use?

- A. the Generate an app from data feature
- B. a custom action in Common Data Service
- C. Power Apps Checker
- D. the Open entity data in Excel feature

Answer: A

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/add-data-connection>

QUESTION 101

A company has a Power Apps app that is used by most employees. The company is expanding to other countries/regions.

You need to recommend a solution to translate text generated within the Power Apps in near real-time.

What should you recommend?

- A. Microsoft Azure Synapse Analytics
- B. Microsoft Azure Cognitive Services
- C. Common Data Service connector
- D. Power BI

Answer: B

Explanation:

https://docs.microsoft.com/en-gb/azure/cognitive-services/welcome?ocid=AID2339762_TWITTER_oo_spl100000827964250

<https://powerapps.microsoft.com/en-us/blog/cognitive-services-with-powerapps-using-custom-connectors/>

QUESTION 102

A company plans to create a canvas app that connects to three databases with different proprietary database formats.

What is the minimum number of connectors required?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/working-with-data-sources>

QUESTION 103

A company uses Power Automate.

Which three items can trigger flows? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Lifecycle Services
- B. Microsoft 365 Admin center
- C. Common Data Service
- D. Microsoft Outlook 365
- E. Microsoft Windows Desktop

Answer: ACD

Explanation:

<https://docs.microsoft.com/en-us/power-automate/email-triggers>

<https://docs.microsoft.com/en-us/power-automate/connection-cds>

<https://dynamics365.wordpress.com/category/powerapps/>

QUESTION 104

A company uses Dynamics 365 Customer Service. The company uses a manual process to manage call escalations.

You must use Power Automate to automate the process for routing escalated calls.

You need to create the flow.

Which type of connector should you use?

- A. Microsoft Excel
- B. Common Data Service
- C. Office 365 Users

Answer: B

QUESTION 105

Hotspot Question

You create reports within Power BI to report on the status of a project. A manager asks you to share the reports with other team members. You decide to create a published app and set permissions to allow other team members to view the reports.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
The Power BI published app is stored within the Team site so that others can install it.	<input type="radio"/>	<input type="radio"/>
One of the other project managers installs and modifies a dashboard within the Power BI published app. The changes are automatically made into the original published app.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
The Power BI published app is stored within the Team site so that others can install it.	<input checked="" type="radio"/>	<input type="radio"/>
One of the other project managers installs and modifies a dashboard within the Power BI published app. The changes are automatically made into the original published app.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:<https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-create-distribute-apps>**QUESTION 106**

Hotspot Question

You create a canvas app by using the Generate from data feature. The app connects to a Microsoft SharePoint list.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
A screen is generated that contains a browsable list of SharePoint list items.	<input type="radio"/>	<input type="radio"/>
A screen is generated that allows users to update SharePoint list items.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
A screen is generated that contains a browsable list of SharePoint list items.	<input checked="" type="radio"/>	<input type="radio"/>
A screen is generated that allows users to update SharePoint list items.	<input type="radio"/>	<input type="radio"/>

Explanation:<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/app-from-sharepoint>**QUESTION 107**

Hotspot Question

A software company plans to use Power Automate.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You must certify custom connectors before users in other departments within your organization can use the connectors.	<input type="radio"/>	<input type="radio"/>
You must use Microsoft Azure API apps to create a public custom connector.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
You must certify custom connectors before users in other departments within your organization can use the connectors.	<input type="radio"/>	<input checked="" type="radio"/>
You must use Microsoft Azure API apps to create a public custom connector.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:<https://docs.microsoft.com/en-us/connectors/custom-connectors/share>**QUESTION 108**

A company uses Power Automate.

Each time a work order is created, a service manager must review and approve the work order before a worker is dispatched.

You need to create a flow to enforce the process.

What should you create?

- A. plug-in
- B. approval flow
- C. business rule
- D. team flow
- E. instant flow
- F. scheduled flow

Answer: B**Explanation:**

With Power Automate, you can manage the approval of documents or processes across several services, including SharePoint, Dynamics 365, Salesforce, OneDrive for Business, Zendesk, or WordPress.

Reference:

<https://docs.microsoft.com/en-us/power-automate/modern-approvals>

QUESTION 109

You are new to working with Microsoft Flow. You create a flow that extracts birth dates for users and then sends a birthday greeting email to users on their birthday.

The flow does not properly extract birth dates.

Where should you make changes?

- A. Connectors
- B. Expression
- C. Templates

Answer: A

Explanation:

Select the new Date Time connector. There you will see all of the actions, which help you to convert time zones to format them for local time in an email, add or subtract times, or just get the current time.

Reference:

<https://flow.microsoft.com/en-us/blog/nested-apply-to-each/>

QUESTION 110

A company has a website. The website includes a form that allows the company to collect information about leads.

You need to set up an automated workflow to create leads in Dynamics 365 Sales when leads are created on the company's custom website.

What should you create?

- A. Task Flow
- B. Power Automate flow
- C. Dynamics 365 workflow
- D. Business Process Flow

Answer: B

Explanation:

<https://trellispoint.com/create-crm-leads-using-microsoft-flow/>

QUESTION 111

A company builds and sells residential apartments. The company uses Dynamics 365 Sales to manage sales opportunities.

Management must receive notifications on their mobile devices when sales opportunities are created.

You need to select recommend Power Platform components to address the requirements.

Which two components should you recommend? Each correct answer presents part of the solution.

NOTE: Each selection is worth one point.

- A. Common Data Service connector
- B. Power BI
- C. Power Automate
- D. AI Builder

Answer: C

Explanation:

<https://www.powerobjects.com/blog/2019/04/05/flow-approval-process/>

QUESTION 112

A company uses Microsoft 365, SharePoint Online, and Dynamics 365 Sales.

You need to recommend tools to build a solution that meets the following requirements:

- Synchronize data daily from an external Microsoft SQL Server instance.
- Send an out-of-the box report automatically to specific company executives.
- Ensure that opportunities over a specified amount are approved by a sales manager.

Which two tools or components should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Microsoft Excel
- B. Microsoft Word
- C. Power BI
- D. Common Data Service
- E. Power Automate

Answer: DE

Explanation:

<https://docs.microsoft.com/en-us/power-platform/admin/data-integrator>

<https://www.powerobjects.com/blog/2019/04/05/flow-approval-process/>

QUESTION 113

A company uses Dynamics 365 Supply Chain Management.

You need to use Power Automate to automate the process of receiving and tracking raw materials.

Which type of connector should you use?

- A. Common Data Service
- B. Dynamics 365
- C. Dynamics 365 for Fin & Ops
- D. Dynamic Signal

Answer: A**Explanation:**

Dynamics 365 for Finance and Operations is now being licensed as Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

You can use Common Data Service to enable the flow of data between Finance and Operations apps and Dynamics 365 Sales.

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/data-entities/data-integration-cds>

QUESTION 114

A company performs on-site inspections and services for air industrial equipment.

Field technicians must perform a series of maintenance checks every time they visit a customer site. Every technician performs maintenance tasks in a different order. Some technicians miss steps.

You need to ensure that all technicians perform the same steps in the same order.

What should you use?

- A. Business process flow
- B. AI Builder
- C. Business rule
- D. Virtual Agent

Answer: A**Explanation:**

You can help ensure that people enter data consistently and follow the same steps every time they work with a customer by creating a business process flow. For example, you might want to create a business process flow to have everyone handle customer service requests the same way, or to require that people get approval for an invoice before submitting an order. Business process flows use the same underlying technology as other processes, but the capabilities that they provide are very different from other features that use processes.

Reference:

<https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview>

QUESTION 115

You have a Power Automate flow that saves attachments from emails into OneDrive for Business.

You need to determine why the flow is not working.

What are three possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Navigate to the Power Automate admin center and view the projects.
- B. Navigate to the Action Items section of the Power Automate portal.
- C. Enable Repair Tips for the flow.
- D. Navigate to the flow and view the run history.

- E. Navigate to the Power Automate web portal and click view notifications.

Answer: BCD

Explanation:

<https://docs.microsoft.com/en-us/power-automate/fix-flow-failures>

QUESTION 116

You are building a Power Automate flow to manage sales.

The sales team saves quotes as PDF files to a Microsoft OneDrive folder. You create a Microsoft SharePoint list to help the sales team manage follow ups to quotes.

You need to copy the customer name, phone number, and the amount of the potential sale from the sales quote and insert the data into the SharePoint list.

Which AI Builder model should you use?

- A. key phrase extraction
- B. sentiment analysis
- C. text recognition
- D. language detection

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/ai-builder/prebuilt-text-recognition>

QUESTION 117

A company wants users to start using Power Automate to improve personal productivity.

You need to create a flow.

Which two elements must you include? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. expression
- B. condition
- C. action
- D. trigger

Answer: CD

Explanation:

<https://docs.microsoft.com/en-us/power-automate/get-started-logic-flow>

QUESTION 118

Drag and Drop Question

You plan to use Microsoft Flow to monitor what people are saying about your company's products. You store the feedback for research and development purposes. You need to recommend Flow components to use for the solution.

To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Components	Answer Area	Requirement	Component
action			
expression		Retrieve the top five posts from your company's Facebook page.	
service		Enter the resulting posts into the product database.	
trigger		Combine author and link fields into a single field.	
flow type		Run flow every hour.	

Answer:

Components	Answer Area	Requirement	Component
		Retrieve the top five posts from your company's Facebook page.	trigger
service		Enter the resulting posts into the product database.	action
		Combine author and link fields into a single field.	expression
		Run flow every hour.	flow type

Explanation:**Box 1: Trigger**

A trigger is something that triggers or starts the workflow. It could be a new file uploaded to a document library, a new item created in the list or an email sent to your Inbox ?something that will start (kick-off the workflow).

There are two types of triggers:

Automatic trigger is pre-programmed into the workflow based on a certain rule (i.e. new document or item created, email sent, etc.)

Manual Trigger is a trigger initiated by a user. Unlike with automatic trigger above, the workflow will only start when initiated manually by the end user (for example, from the Document Library for a selected file). Manual trigger is only supported for certain types of workflows (i.e. Get feedback from your manager for the selected file)

Box 2: action

An action is something that occurs as a result of the workflow.

Box 3: expression

Sometimes users just need to do basic operations like getting the current time, adding numbers together, or replacing a part of a string of text. That's possible inline in any flow action. Microsoft Flow leverages the same Workflow Definition Language used by Azure Logic apps. For new

users who are unfamiliar with the expression language, there is an inline help experience that shows how to use each expression as they build out their flow.

Box 4: flow type

There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow.

Reference:

<https://sharepointmaven.com/3-major-components-microsoft-flow/>

<https://www.avepoint.com/blog/office-365/office-365-automation/>

<https://flow.microsoft.com/de-de/blog/use-expressions-in-actions/>

QUESTION 119

Drag and Drop Question

A company plans to use Power Automate to automate tasks.

Match each flow type to its description. To answer, drag the appropriate flow type from the column on the left to its description on the right. Each option may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Flow types	Answer Area	Description	Flow type
automated		a flow that runs after it is triggered by an event	Flow type
business process		a flow that guides a user through a set of tasks	Flow type
scheduled		a flow that runs after a specified number of days	Flow type
instant		a flow that allows you to start tasks on-demand	Flow type

Answer:

Flow types	Answer Area	Description	Flow type
		a flow that runs after it is triggered by an event	automated
		a flow that guides a user through a set of tasks	business process
		a flow that runs after a specified number of days	scheduled
		a flow that allows you to start tasks on-demand	instant

Explanation:

Box 1: automated

Automated flows start with an event or trigger, such as an email being received. These also support a multitude of actions in the 200+ Flow connectors.

Box 2: business process

The business process flow that creates stages or screens that enforce a certain sequence of steps. It collects data from users for each step in the stage and can kick off automated workflows.

Box 3: scheduled

Scheduled flows run regular reports that are sent out to a team and summarize everything that's happened in the past week. This includes everything from simple daily scheduling to more complex scheduling like "every 3rd Monday."

Box 4: instant

An instant flow is triggered when you click a button inside of the Flow mobile app, SharePoint, Dynamics, PowerApps, or Excel that passes context directly into your flow.

Note: There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow.

<https://www.avepoint.com/blog/office-365/office-365-automation/>

QUESTION 120

Hotspot Question

A company plans to synchronize data between Dynamics 365 Supply Chain management and Dynamics 365 Sales.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can implement a process-based integration by using the Data Integration feature.	<input type="radio"/>	<input type="radio"/>
You can use Microsoft Azure Data Migration to synchronize data between the apps.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can implement a process-based integration by using the Data Integration feature.	<input checked="" type="radio"/>	<input type="radio"/>
You can use Microsoft Azure Data Migration to synchronize data between the apps.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/business-applications-release-notes/april19/cdm-data-integration/cds-data-integrator>

QUESTION 121

Hotspot Question

You plan to send an email notification to a user when a new file is placed in a specific folder in OneDrive for Business.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can create a flow without writing a single line of code and deploy the flow to a production environment.	<input type="radio"/>	<input checked="" type="radio"/>
You cannot add additional actions to the built-in Power Automate templates.	<input checked="" type="radio"/>	<input type="radio"/>
You can view the code that implements workflow actions and triggers without installing additional software.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can create a flow without writing a single line of code and deploy the flow to a production environment.	<input checked="" type="radio"/>	<input type="radio"/>
You cannot add additional actions to the built-in Power Automate templates.	<input type="radio"/>	<input checked="" type="radio"/>
You can view the code that implements workflow actions and triggers without installing additional software.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/power-automate/getting-started>
<https://docs.microsoft.com/en-us/power-automate/multi-step-logic-flow>

QUESTION 122

Hotspot Question

For which scenarios can you use Power Automate?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Notify team members when a response is recorded in a form in Microsoft Forms.	<input type="radio"/>	<input checked="" type="radio"/>
When email is received, save email attachments to OneDrive for Business.	<input checked="" type="radio"/>	<input type="radio"/>
Receive notifications when negative comments about the company are posted on Twitter.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Notify team members when a response is recorded in a form in Microsoft Forms.	<input checked="" type="radio"/>	<input type="radio"/>
When email is received, save email attachments to OneDrive for Business.	<input checked="" type="radio"/>	<input type="radio"/>
Receive notifications when negative comments about the company are posted on Twitter.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://flow.microsoft.com/en-us/galleries/public/templates/b923bb04bda11e78896d10a96d3fac3/notify-the-team-when-a-new-response-is-submitted/>

<https://flow.microsoft.com/en-us/blog/get-notified-of-negative-posts/>

QUESTION 123

Drag and Drop Question

A project deadline is approaching. The project manager reports that there are still a number of critical tasks that are not complete.

You need to implement Power Automate to help streamline processes.

Which types of flows should you use? To answer, drag the appropriate flow types to the correct requirement. Each flow type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Flow types	Answer Area	Requirement	Flow type
automated		Ensure that all of the steps for completing tasks are consistently followed by all team members.	
instant		Allow users to send an email to the project lead whenever a task is completed.	
scheduled		Automatically send a list of completed tasks at the end of each week.	
business process			

Answer:

Flow types	Answer Area	Requirement	Flow type
instant		Ensure that all of the steps for completing tasks are consistently followed by all team members.	business process
		Allow users to send an email to the project lead whenever a task is completed.	automated
		Automatically send a list of completed tasks at the end of each week.	scheduled

Explanation:

<https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview>

<https://docs.microsoft.com/en-us/power-automate/get-started-logic-flow>

<https://docs.microsoft.com/en-us/power-automate/run-scheduled-tasks>

QUESTION 124

Drag and Drop Question

A company provides on-site architectural consulting services to residential and business customers. The company wants to implement a simple alert system where a consultant can press a button on their mobile device to send the user's location to the company as a text notification.

You need to build a button flow that sends the notification.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Add a new step to the flow.	
Add a trigger.	
Select a connector and action to send text notifications.	
Set the actions properties.	
Save the flow.	

Answer:

Actions**Answer Area**

Add a new step to the flow.

Select a connector and action to send text notifications.

Set the actions properties.

Add a trigger.

Save the flow.

Explanation:

<https://docs.microsoft.com/en-us/power-automate/button-flow-with-user-input-tokens#main>

QUESTION 125

Hotspot Question

A company is using Power Automate to automate business processes.

You need to recommend triggers for Instant flows.

What trigger types should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area**Requirement****Trigger type**

Run a flow when the user presses a button in a canvas app.

PowerApps
for a selected row
manually trigger a flow
for a selected file (OneDrive for a Business)

Run a flow when user presses a button in the mobile Flow app.

PowerApps
for a selected row
manually trigger a flow
for a selected file (SharePoint)

Answer:

Answer Area

Requirement	Trigger type
Run a flow when the user presses a button in a canvas app.	<div style="border: 1px solid black; padding: 5px;"><div style="background-color: #e0f2e0; border-bottom: 1px solid black; padding-bottom: 2px;">PowerApps</div><div>for a selected row</div><div>manually trigger a flow</div><div>for a selected file (OneDrive for a Business)</div></div>
Run a flow when user presses a button in the mobile Flow app.	<div style="border: 1px solid black; padding: 5px;"><div style="background-color: #e0f2e0; border-bottom: 1px solid black; padding-bottom: 2px;">PowerApps</div><div>for a selected row</div><div>manually trigger a flow</div><div>for a selected file (SharePoint)</div></div>

Explanation:

<https://www.o365dude.com/2017/07/15/flow-buttons-the-hidden-gem-of-microsoft-flow/>

QUESTION 126

Hotspot Question

A business plans to including AI Builder.

Which actions can you perform?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can use a text classification model in AI Builder to retrieve text and analyze its meaning.	<input type="radio"/>	<input type="radio"/>
You can tag Instagram posts that mention your new product.	<input type="radio"/>	<input type="radio"/>
You can send results about the number of mentions of your new product in Instagram to Power BI for inclusion on a dashboard.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can use a text classification model in AI Builder to retrieve text and analyze its meaning.	<input checked="" type="radio"/>	<input type="radio"/>
You can tag Instagram posts that mention your new product.	<input type="radio"/>	<input checked="" type="radio"/>
You can send results about the number of mentions of your new product in Instagram to Power BI for inclusion on a dashboard.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/ai-builder/text-classification-model-in-flow>

QUESTION 127

Hotspot Question

You are creating a Power Virtual Agents chatbot for a company.

Which component types should you use for each scenario? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Component type
The chatbot needs to capture of the user id for authentication.	<div style="border: 1px solid black; padding: 5px;"><input type="checkbox"/> Topic <input type="checkbox"/> Entity <input type="checkbox"/> Action</div>
A customer asks a question that needs to be handed off to a live Customer Support representative.	<div style="border: 1px solid black; padding: 5px;"><input type="checkbox"/> Topic <input type="checkbox"/> Entity <input type="checkbox"/> Action</div>

Answer:

Answer Area**Scenario**

The chatbot needs to capture of the user id for authentication.

Component type

Topic
Entity
Action

A customer asks a question that needs to be handed off to a live Customer Support representative.

Topic
Entity
Action

Explanation:

<https://docs.microsoft.com/en-us/power-virtual-agents/fundamentals-what-is-power-virtual-agents>

QUESTION 128

TPT Limited, a large retail company is implementing Power Apps, Microsoft Flow, and the Common Data Service. Which tool will verify to the board of directors, the usage of the software and whether users are finding value in the technology?

- A. Azure Stream Analytics
- B. Microsoft Intune
- C. Dynamics 365 Product Insights
- D. Power Platform Analytics

Answer: D**QUESTION 129**

TPT Limited uses the Dynamics 365 Supply Chain Management and plans to automate receiving and tracking raw materials by using Microsoft Flow. Which connector type should be used by TPT Limited?

- A. Dynamic Signal
- B. Common Data Service
- C. Dynamics 365
- D. Dynamics 365 for Fin & Ops

Answer: B**QUESTION 130**

TPT Limited uses Dynamics 365 Sales and a web browser-based app named Sales-Hub. Which

app users should install to access data from mobile devices?

- A. Dynamics 365 Business Central
- B. Dynamics 365 for Phones
- C. Dynamics 365 Finance
- D. Dynamics 365 Remote Assist

Answer: B

QUESTION 131

Which of the following solution will quickly enable TPT Limited a Logistics company with multiple warehouses, to calculate tax rates on sales orders based on locality and region?

- A. Run a Power BI report.
- B. Implement the Common Data Model.
- C. Create alerts in Dynamics 365 Finance for tax table changes.
- D. Check AppSource for a tax add-on.

Answer: C

QUESTION 132

TPT Limited is building Power Apps apps using both Dynamics 365 Sales and Microsoft 365. Which of the following option is applicable for SSO to function?

- A. You should not download a product from AppSource to ensure that SSO works with Dynamic 365 Sales and Microsoft 365.
- B. You must download a product from AppSource to ensure that SSO works with Dynamic 365 Sales and Microsoft 365.

Answer: A

QUESTION 133

Which of the following options will help roll back an app to a previous version as the updated version has caused negative impact on the users?

- A. Delete the app and create a new app based on the previous version.
- B. Restore the previous version of the app.
- C. Deactivate the live app, import the previous version of the app, and then activate the app.
- D. Uninstall the app for all users and reinstall by using the previous versions' package.

Answer: B

QUESTION 134

Which data source will be used by Robert, a customer service manager at TPT Limited, who plans to implement a Power Apps portal enabling case submission by customers?

- A. Common Data Service
- B. Microsoft Azure Storage
- C. Microsoft SharePoint

- D. Dynamics 365 Connector

Answer: C

QUESTION 135

Select the validity of the statement - "AI Builder can be used to send results about the number of mentions of your new product in Instagram to Power BI for inclusion on a dashboard."

- A. Statement is Invalid
- B. Statement is Valid

Answer: B

QUESTION 136

Which of the following statement will be applicable for TPT Limited which plans to use Power BI for visualizing data from business systems?

- A. You can display related data from Dynamic 365 Customer Engagement and Excel in the same Power BI report.
- B. You cannot display related data from Dynamic 365 Customer Engagement and Excel in the same Power BI report.

Answer: B

QUESTION 137

State whether the following statement holds True or False, considering the use of Dynamics 365 Sales and Microsoft 365 while building Power Apps - "Dynamic 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO)."

- A. Statement is Correct
- B. Statement is Incorrect

Answer: B

QUESTION 138

Your company uses Dynamics 365.

When a service ticket is created, a technician visit to the customer is required. Technician visits should be consented to by a manager.

You need to ensure that the process is followed.

What should you use?

- A. Scheduled flow
- B. Business rule
- C. Approval flow
- D. Button flow

Answer: C

Explanation:

You should use approval flows to manage the approval process. These are used for managing approval processes or automating the approval system, like approving an inventory request or

approving a leave request.

You should not use schedule flows. Schedule flows are used when you want to perform an action on a specific time or duration, like after an hour or once a day.

You should not use button flows. Button flows are used to automate tasks with a click of a button. Once a button is clicked, it will trigger an action.

You should not use business rules. These are used when you want to perform a series of tasks in a specific order.

QUESTION 139

The Common Data Model (CDM) is a standard and extensible collection of schemas, including entities, attributes and relationships that represents business concepts and activities with well-defined semantics. It consists of a set of standardized, extensible data schemas published by Microsoft and partners to facilitate data interoperability.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. Dynamics 365 Business Central
- B. Common Data Services (CDS)
- C. Business process flow
- D. No change is needed.

Answer: D

Explanation:

The Common Data Model (CDM) is a standard and extensible collection of schemas, including entities, attributes and relationships that represents business concepts and activities with well-defined semantics. It consists of a set of standardized, extensible data schemas published by Microsoft and partners to facilitate data interoperability.

You should not change to Common Data Services (CDS). CDS is used to store and manage data used by business applications. The data is stored within a set of entities. CDS uses the CDM to provide a set of standardized entities used by your applications.

You should not change to Dynamics 365 Business Central. This is an end-to-end solution for finance, sales, services, and operations for small and mid-sized companies.

QUESTION 140

You are the Power Platform administrator in your company.

You want to create new users and manage their license assignment. You need to use the appropriate admin center to perform these tasks. What should you use?

- A. Microsoft 365 admin center
- B. Power Apps admin center
- C. Power Platform admin center
- D. Dynamics 365 admin center

Answer: A

Explanation:

You should use the Microsoft 365 admin center to create new users and manage their license assignment. You can also manage billing and payment methods in this admin center.

You should not use the Power Platform admin center. You can use this admin center to manage Common Data Service (CDS) environments and consult your environment analytics and capacity.

You should not use the Power Apps admin center. You can use this admin center to manage environments, including the apps and flows within a environment.

You should not use the Dynamics 365 admin center. You can use this admin center to rename, reset and delete a CDS environment.

QUESTION 141

Hotspot Question

You are authoring a Power Virtual Agents chatbot for a company.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
You must create a custom action to display a knowledge base article that answers a common support question.	<input type="radio"/>	<input type="radio"/>
You can use Power Automate to retrieve a customer's contact number in order to verify they are an authorized user and their support plan SLA.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statements	Yes	No
You must create a custom action to display a knowledge base article that answers a common support question.	<input type="radio"/>	<input checked="" type="radio"/>
You can use Power Automate to retrieve a customer's contact number in order to verify they are an authorized user and their support plan SLA.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/azure/cognitive-services/qnamaker/tutorials/integrate-with-power-virtual-assistant-fallback-topic>

<https://docs.microsoft.com/en-us/power-virtual-agents/advanced-flow>

QUESTION 142

Hotspot Question

You build a Power BI report.

You need to inform a business user on how to use the report.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Statement	Yes	No
You can export data from a visualization in the report.	<input type="radio"/>	<input type="radio"/>
You can access multiple datasets in the same report.	<input type="radio"/>	<input type="radio"/>
You can see the underlying data behind a visualization without exporting it.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
You can export data from a visualization in the report.	<input checked="" type="radio"/>	<input type="radio"/>
You can access multiple datasets in the same report.	<input type="radio"/>	<input checked="" type="radio"/>
You can see the underlying data behind a visualization without exporting it.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

You can export data from a visualization in the report. You can export the summarized data used to build the visualization and the underlying data behind the visualization as CSV or Excel files. You cannot access multiple datasets in the same report. Power BI reports are based on a single dataset with capabilities to interact with your visualizations, like applying filters and slices and exporting the data.

You cannot see the underlying data behind a visualization without exporting it. You can see the summarized data in a report visualization using the Show as Table option. To see the underlying data behind a visualization, you need to export it first.

QUESTION 143

Hotspot Question

You need to use Power Apps to meet your company's requirements.

What PowerApps feature should use for each task? To answer, select the appropriate options from the drop-down menus.

Task	Feature
Create customized apps with full control over the user interface.	Canvas apps Model-driven apps Power Apps portals
Create apps for complex business logic involving Common Data Service.	Canvas apps Model-driven apps Power Apps portals
Create customer-facing apps that can interact with users.	Canvas apps Model-driven apps Power Apps portals

Answer:

Task	Feature
Create customized apps with full control over the user interface.	Canvas apps Model-driven apps Power Apps portals
Create apps for complex business logic involving Common Data Service.	Canvas apps Model-driven apps Power Apps portals
Create customer-facing apps that can interact with users.	Canvas apps Model-driven apps Power Apps portals

Explanation:

You should use canvas apps for highly customizable layouts. Canvas apps provide full control over user interface and how screens can interact with each other.

You should use model-driven apps for implementing complex business logic. Model-driven apps take care of the user interface part, so you only need to focus on business rules, forms, and views.

You should use Power Apps portals for a customer facing website. Power Apps portals allow you to create a customer engagement website using pre-built templates.

QUESTION 144

You plan to use Power Automate to perform data-management tasks when users interact with sales opportunities in Dynamics 365.

You need to identify the three types of events that can generate a trigger for the tasks.

Which three types of events should you identify? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. when a record is displayed in a view
- B. when a record is deleted
- C. when a record is created
- D. when a record is updated
- E. when a record is read

Answer: BCD

Explanation:

Triggers like When a record is created, When a record is updated, and When a record is deleted initiate your flow within a few minutes of the event occurring. In rare cases, your flow can take up to 2 hours to trigger.

Reference:

<https://docs.microsoft.com/en-us/power-automate/connection-dynamics365>

QUESTION 145

You use Power Automate for personal productivity.

You often overwrite working flows by editing the definitions. You are unable to undo changes after saving a flow.

You need to be able to revert a flow to the current state.

Which two options can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Export
- B. Rename
- C. Save As
- D. Share

Answer: AC

Explanation:

A: You can export a flow as a package and import it into a different environment, or use it to restore it in the same environment at a later point in time.

C: The ability to make a copy of your flow is often useful when you want to create a flow similar to something you've already created. Or, if you want to maintain a draft of your working flow as you work on adding more functionality.

Here's how:

Go to your My flows page. Click on the More (...) menu item next to the flow that you want to create a copy of. Click on the Save As command.

Reference:

<https://flow.microsoft.com/en-us/blog/import-export-bap-packages/>
<https://flow.microsoft.com/en-us/blog/make-a-copy/>

QUESTION 146

You use Power Automate to create a flow that automatically sends email to a project manager

when project team members mark a task as complete.

Project team members are prematurely marking tasks as complete. Project leads must validate that tasks are complete before an email is sent to the project manager to announce task completion.

You need to modify the flow.

Which component should you use?

- A. a process argument
- B. a condition
- C. an expression
- D. a trigger
- E. a solution

Answer: B

Explanation:

Use a condition and set the action to send an email.

Reference:

<https://docs.microsoft.com/en-us/power-automate/add-condition>

QUESTION 147

A company is using Power Automate to automate business processes.

You need to run a flow when a user presses a button in an app.

Which trigger type should you recommend?

- A. Power Apps
- B. for a selected row
- C. manually trigger a flow

Answer: A

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/using-logic-flows>

QUESTION 148

You are planning to allow members of your team to test your chatbot.

You must ensure this is done in a secure way.

A team member named User1 must test the chatbot.

You need to ensure that User1 can complete testing.

What should you do?

- A. Sign in to the authoring environment as the chatbot author.
- B. Sign in to Microsoft Azure DevOps as the chatbot author.
- C. Sign in to Microsoft Azure DevOps as User1.
- D. Sign in to the authoring environment as User1.

Answer: A**QUESTION 149**

You are creating a Power Automate flow.

The flow must read each item in a Microsoft SharePoint list that details sales opportunities and set the value for a field named Status to Overdue if the value of a field named Follow up is less than or equal to the current date.

You need to select the appropriate component to cycle through the entire list.

Which component should you use?

- A. Connector
- B. Action
- C. Trigger
- D. Condition

Answer: A**QUESTION 150**

A company uses Power Apps canvas apps.

When a user opens Power Apps Studio in a browser and selects Apps I can edit, they do not see an app that they need to modify.

You need to determine why the user cannot see the app.

What are three possible reasons? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. The user selected an incorrect Power Apps environment.
- B. The user has not been granted the System Customizer role.
- C. The user has not been set as the app co owner.
- D. The app has not been shared with the user.
- E. The environment does not have a Common Data Service database.

Answer: ACD**Explanation:**

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/edit-app>

QUESTION 151

You are a sales manager for a large retail organization. You are creating a Power Apps app that will display customer product purchase information from your old point-of-sale (POS) system and need to link those sales to the customer accounts and product sales in Dynamics 365 Commerce. You need to use the appropriate component.

What should you use?

- A. business process flow
- B. business rule
- C. Common Data Service
- D. entity metadata

Answer: C**QUESTION 152**

A company is building apps to support their business operations. The apps will use connectors to access data from several data sources and respond to a number of events generated by components.

Which two operations can you use for connectors? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Triggers
- B. Plug-ins
- C. Actions
- D. Gateways

Answer: CD

QUESTION 153

A company uses Dynamics 365 Supply Chain Management.

When a sales order is created for one of the customers that a specific user manages, a Microsoft Outlook task must be created to remind the user to perform any follow up activities that are required.

You need to implement the functionality to create Outlook tasks.

Which feature should you use?

- A. Power Automate
- B. AI Builder
- C. Power BI
- D. Business Events
- E. Common Data Service

Answer: A

QUESTION 154

Hotspot Question

A company is evaluating ways to connect Power Platform apps to external services to perform complex activities. For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can create a canvas app that scans and parses documents using Azure Cognitive Services and then adds the appropriate information to Dynamics 365 Sales.	<input type="radio"/>	<input checked="" type="radio"/>
You can create a canvas app that uses Azure Cognitive Services to read incident records and identify tickets that need to be escalated based on sentiment score.	<input checked="" type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can create a canvas app that scans and parses documents using Azure Cognitive Services and then adds the appropriate information to Dynamics 365 Sales.	<input checked="" type="radio"/>	<input type="radio"/>
You can create a canvas app that uses Azure Cognitive Services to read incident records and identify tickets that need to be escalated based on sentiment score.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 155

Drag and Drop Question

Match each tool to its task. To answer, drag the appropriate tool from the column on the left to its task on the right. Each tool may be used once, more than once, or not at all. NOTE: Each correct match is worth one point.

Tools	Answer Area	Task	Tool
Power BI		Automate workflows.	Tool
Power Automate		Trigger an action from an event.	Tool
Power Apps		Create a custom mobile data entry screen.	Tool

Answer:

Tools	Answer Area	Task	Tool
Power BI		Automate workflows.	Power Automate
Power Automate		Trigger an action from an event.	Power Automate
Power Apps		Create a custom mobile data entry screen.	Power Apps

Explanation:

<https://docs.microsoft.com/en-us/power-automate/getting-started>
<https://docs.microsoft.com/en-us/powerapps/maker/portals/compose-page#add-form>

QUESTION 156

Drag and Drop Question

You create a model-driven app.

The app is ready to be shared.

You need to complete the process required to set the app up to be shared.

How should you complete the process for setting up the app to be shared? To answer, drag the appropriate setting to the correct drop targets. Each source may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Processes	Answer Area	Step	Process
Select an app from the Power Apps		1	Process
Select the app and select a security		2	Process
Select a user and choose a security		3	Process
Select Share.		4	Process

Answer:

Processes	Answer Area	
		Step Process 1 Select an app from the Power Apps 2 Select Share. 3 Select the app and select a security 4 Select a user and choose a security

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/share-model-driven-app>

QUESTION 157

Drag and Drop Question

You need to create a mobile application which will allow sales associates to enter customer sales leads.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
Save the app.	
Add components to the app.	
Publish the app.	>
Add flows to the app.	<
Go to the Office 365 admin center.	
Create a new Power Apps app.	

^
v

Answer:

Actions	Answer area
	Create a new Power Apps app.
	Add components to the app.
>	Save the app.
<	Publish the app.
Add flows to the app.	
Go to the Office 365 admin center.	

^
v

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/build-first-model-driven-app>

QUESTION 158

Hotspot Question

You are building Power BI visualizations for a team.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input type="radio"/>	<input type="radio"/>
Power BI visualizations can be used in canvas apps and model driven apps.	<input type="radio"/>	<input type="radio"/>
Power BI can display charts and list boxes on dashboards.	<input type="radio"/>	<input type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input checked="" type="radio"/>	<input type="radio"/>
Power BI visualizations can be used in canvas apps and model driven apps.	<input type="radio"/>	<input type="radio"/>
Power BI can display charts and list boxes on dashboards.	<input type="radio"/>	<input type="radio"/>

QUESTION 159

Hotspot Question

You have a Power BI report with a page named RevReceived. The page shows gross revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue.

What should you do? To answer, select the appropriate option in the answer area.

Answer Area

You should	copy the visuals from RevReceived to a new page. duplicate the RevReceived page and update the duplicate copy. import the RevReceived page. modify the RevReceived page.
------------	---

Answer:**Answer Area**

You should	copy the visuals from RevReceived to a new page. duplicate the RevReceived page and update the duplicate copy. import the RevReceived page. modify the RevReceived page.
------------	---

QUESTION 160

Drag and Drop Question

You create a Power BI dashboard.

Match each option to its requirement. To answer, drag the appropriate option from the column on the left to the correct requirement on the right. Each option may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Options	Answer Area	Requirement	Option
Share		Ensure that coworkers can see the dashboard.	Option
Embed		Display data from Microsoft Excel in the dashboard.	Option
Get Data		Add a report tile to the dashboard.	Option
Pin			

Answer:

Options	Answer Area	Requirement	Option
Embed		Ensure that coworkers can see the dashboard.	Share
		Display data from Microsoft Excel in the dashboard.	Get Data
		Add a report tile to the dashboard.	Pin

QUESTION 161

Hotspot Question

For each of the following statements, select Yes if the statement is true, Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer Area	Statement	Yes	No
	Power Apps apps can run only on mobile devices.	<input type="radio"/>	<input type="radio"/>
	Power Apps can run only with Dynamic 365 products.	<input type="radio"/>	<input type="radio"/>
	If a user runs a Power Apps app that accesses information to which the user does not have access, the app grants the user permissions.	<input checked="" type="radio"/>	<input type="radio"/>

Answer:

Answer Area	Statement	Yes	No
	Power Apps apps can run only on mobile devices.	<input checked="" type="radio"/>	<input type="radio"/>
	Power Apps can run only with Dynamic 365 products.	<input type="radio"/>	<input checked="" type="radio"/>
	If a user runs a Power Apps app that accesses information to which the user does not have access, the app grants the user permissions.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 162

Hotspot Question

A company plans to build solutions by using Power Platform technologies. For each of the following statements, select Yes if the statement Is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Power Virtual Agents chat data is saved unless it is deleted by the customer after a chat session.	<input type="radio"/>	<input type="radio"/>
Power Automate flows operate with administrative privileges at all times.	<input type="radio"/>	<input checked="" type="radio"/>

Answer:**Answer Area**

Statement	Yes	No
Power Virtual Agents chat data is saved unless it is deleted by the customer after a chat session.	<input checked="" type="radio"/>	<input type="radio"/>
Power Automate flows operate with administrative privileges at all times.	<input type="radio"/>	<input checked="" type="radio"/>

QUESTION 163

Hotspot Question

You want to create a Power Apps app that allows you to define a custom Sitemap. What should you do? To answer, select the appropriate options in the answer area.

Navigate to the Power Apps portal and create

a canvas app.
a model-driven app.
a portal app.
an app by using a template.

Answer:

Navigate to the Power Apps portal and create

a canvas app.
a model-driven app.
a portal app.
an app by using a template.

Explanation:

<https://docs.microsoft.com/en-us/powerapps/powerapps-overview>

QUESTION 164

Hotspot Question

You are a retail director for a large clothing company. Each week you use the corporate YouTube channel to create a video that highlights new initiatives, and goals for retail operations. You need to design a Power Apps app that streams the videos to internal users. Which objects should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Action
Implement the Power Apps app.

Option

Canvas
Model-driven
Portal

Use drag and drop to add a video to the app.

View
Connector
Control

Apply consistent company colors to the app.

Unified Interface
Control
Theme
Template

Answer:

Action	Option
--------	--------

Implement the Power Apps app.	<div style="border: 1px solid black; padding: 5px; width: fit-content;"><p>Canvas</p><p>Model-driven</p><p>Portal</p></div>
-------------------------------	---

Use drag and drop to add a video to the app.	<div style="border: 1px solid black; padding: 5px; width: fit-content;"><p>View</p><p>Connector</p><p>Control</p></div>
--	---

Apply consistent company colors to the app.	<div style="border: 1px solid black; padding: 5px; width: fit-content;"><p>Unified Interface</p><p>Control</p><p>Theme</p><p>Template</p></div>
---	---

QUESTION 166

Hotspot Question

You are creating a model-driven app.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
To add entities to an app, entities are dragged onto the app canvas from the components area.	<input type="radio"/>	<input checked="" type="radio"/>
View definition is created in the component area of the app designer.	<input type="radio"/>	<input checked="" type="radio"/>
You must save, validate, and publish your app for others to see the changes.	<input checked="" type="radio"/>	<input type="radio"/>

Answer:

Statements	Yes	No
To add entities to an app, entities are dragged onto the app canvas from the components area.	<input type="radio"/>	<input checked="" type="radio"/>
View definition is created in the component area of the app designer.	<input checked="" type="radio"/>	<input type="radio"/>
You must save, validate, and publish your app for others to see the changes.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/build-first-model-driven-app>

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/validate-app>

QUESTION 167

User1 creates several Power BI dashboards for a company.

User1 shares a dashboard with User2 who works for another company.

User2 reports that she is able to view the dashboard.

User2 forwards the email containing the dashboard sharing link that she received to User3.

User3 reports that he receives an error message when he selects the link to view the dashboard.

User3 can view a dashboard that he has created.

You need to determine why User3 receives an error.

What is the issue?

- A. Forwarding the email does not share the dashboard with User3.
- B. User3 is running an out-of-date version of Power BI and must upgrade to a newer version.
- C. User1 is signed in using the wrong organizational account for Power BI.
- D. User2 is signed in to the dashboard and must sign out before User3 can sign in.

Answer: A**QUESTION 168**

A company is creating a chatbot to replace a frequently asked questions (FAQ) site.

You must perform step-by-step testing for all scenarios that are part of a complex user interaction that includes multiple topics.

Testers must be able to see the workflow while interacting with the chatbot.

You need to test the chatbot.

What should you do?

- A. Publish the chatbot and test it in the demo website.
- B. Use the chatbot designer to test the chatbot
- C. View analytics for a chatbot conversation.
- D. Publish the chatbot and test it in any channel

Answer: B

QUESTION 169

A company is building an interactive chatbot to answer questions about products and product warranties.

You need to create conversation paths re questions about product warranties.
Which tool should you use?

- A. Azure Bot Framework
- B. Power Platform admin center
- C. Conversation node
- D. Authoring canvas
- E. Power Virtual Agents portal

Answer: E

QUESTION 170

A company is creating a canvas app to track and analyze customer visits to their retail stores.
Data about customer visits is stored on-premises at each retail store location.

The app must display data about customer visits when users launch the app.
You need to ensure that the data is available for consumption by the app.
Which tool should you use?

- A. Data gateway
- B. Data source
- C. Connector
- D. Microsoft Dataverse
- E. Power Automate

Answer: A

QUESTION 171

Hotspot Question

You are creating a Power Automate approval flow.

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
The addition of an expense report to a Microsoft OneDrive folder can initiate an approval flow.	<input type="radio"/>	<input type="radio"/>
Approvals must follow a sequential order of approval.	<input type="radio"/>	<input type="radio"/>

Answer:

Statements	Yes	No
The addition of an expense report to a Microsoft OneDrive folder can initiate an approval flow.	<input checked="" type="radio"/>	<input type="radio"/>
Approvals must follow a sequential order of approval.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Box 1: Yes

Box 2: No

Parallel approvals, integrated approvals, and unanimous approvals are also allowed.

Reference:

<https://docs.microsoft.com/en-us/power-automate/modern-approvals><https://docs.microsoft.com/en-us/power-automate/create-approval-response-options>**QUESTION 172**

Hotspot Question

You create a Power Virtual Agents chatbot for use with Microsoft Teams.

You are testing the chatbot.

Testers report the following issues:

- Changes that you make to the chatbot are not seen by testers.
- When users enter the word refund the chatbot must ask the user the product for which they would like a refund.
- The chatbot does not ask the user for product information.

You need to determine what needs to be done to fix the issues.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Missing changes

Create a new chatbot.
Publish the chatbot.
Save the topic.
Share the chatbot.

Refund responses are not working as expected.

Change security.
Create a refund topic.
Create a refund chatbot.

Answer:

Missing changes

Create a new chatbot.
Publish the chatbot.
Save the topic.
Share the chatbot.

Refund responses are not working as expected.

Change security.
Create a refund topic.
Create a refund chatbot.

Explanation:

<https://docs.microsoft.com/en-us/power-virtual-agents/publication-fundamentals-publish-channels>

QUESTION 173

Drag and Drop Question

You are creating a Power Automate flow.

You need to retrieve data from several sources including Microsoft Excel, Azure Data lake, and GitHub.

What should you use? To answer, drag the appropriate components to the correct data sources. Each component may be used once, more than once, or not at all. You may need to drag the split

bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point

Components	Answer Area	Component
Connector	Data source	
Expression	Microsoft Excel	
Formula	Azure Data Lake	
	GitHub	

Answer:

Components	Answer Area	Component
	Data source	Formula
	Microsoft Excel	Connector
	Azure Data Lake	Expression
	GitHub	

QUESTION 174

Hotspot Question

You are authoring a Power Virtual Agents chatbot for a company.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
When escalating to a live person from a chatbot, the customer must restate their issue and other information collected.	<input type="radio"/>	<input type="radio"/>
You can customize the greeting topic for every chatbot that you author.	<input type="radio"/>	<input type="radio"/>

Answer:

Statement	Yes	No
When escalating to a live person from a chatbot, the customer must restate their issue and other information collected.	<input checked="" type="radio"/>	<input type="radio"/>
You can customize the greeting topic for every chatbot that you author.	<input type="radio"/>	<input type="radio"/>

QUESTION 175

Drag and Drop Question

A medical office has a model-driven app that uses Common Data Service. You plan to create a screen that allows users to capture information about doctors. The screen must provide users the ability to enter or select the following information:

- a place to enter doctor-profile data that is not part of the account table or the contact table
- a place to enter the doctor's specialty in the profile form
- a column for insurance with the ability to pick one of 10 different insurance companies.

You need to store the captured data in Common Data Service. What should you use to store the data? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Options	Answer Area								
Entity	<table border="1"><thead><tr><th>Requirement</th><th>Option</th></tr></thead><tbody><tr><td>Store additional doctor profile data.</td><td>Option</td></tr><tr><td>Store information about the doctor's specialty.</td><td>Option</td></tr><tr><td>Select an insurance company.</td><td>Option</td></tr></tbody></table>	Requirement	Option	Store additional doctor profile data.	Option	Store information about the doctor's specialty.	Option	Select an insurance company.	Option

QUESTION 176

Drag and Drop Question

You plan to use Power Automate to monitor what people are saying about your company's products.

You store the feedback for research and development purposes.

You need to recommend Power Automate components to use for the solution.

To answer drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point

Components	Answer Area	Requirement	Component
action		Retrieve the top five posts from your company's Facebook page.	
expression		Enter the resulting posts into the product database.	
service		Combine author and link fields into a single field.	
trigger		Run flow every hour.	
flow type			

Answer:

Components	Answer Area	Requirement	Component
action		Retrieve the top five posts from your company's Facebook page.	action
expression		Enter the resulting posts into the product database.	action
service		Combine author and link fields into a single field.	expression
trigger		Run flow every hour.	trigger
flow type			

QUESTION 177

Hotspot Question

You are creating a model-driven app.

You need to add forms to the app.

Which form types should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Form type
a compact form for mobile devices	<input type="button" value="Card"/> <input type="button" value="Quick Create"/> <input type="button" value="Quick View"/>
a basic form for data entry	<input type="button" value="Main"/> <input type="button" value="Quick Create"/> <input type="button" value="Quick View"/>
a compact form for use in web clients to edit records	<input type="button" value="Advanced Find Views"/> <input type="button" value="Associated Views"/> <input type="button" value="Lookup Views"/> <input type="button" value="Public Views"/>

Answer:

Requirement	Form type
a compact form for mobile devices	<input type="button" value="Card"/> Quick Create <input type="button" value="Quick View"/>
a basic form for data entry	<input type="button" value="Main"/> <input type="button" value="Quick Create"/> Quick View
a compact form for use in web clients to edit records	<input type="button" value="Advanced Find Views"/> <input type="button" value="Associated Views"/> Lookup Views <input type="button" value="Public Views"/>

QUESTION 178

Drag and Drop Question

A company is creating a canvas app to manage weekly status reports from users about projects. Status reports must be created weekly. Users can enter project tasks with descriptions. Users can also add escalation requests for tasks that are late or at risk. When a status report is submitted with an escalation request the app must automatically send a text message to the submitter's manager. A reminder must be sent at 8 PM on Sunday to everyone who has not yet submitted a status report for the previous week.

You need to identify the appropriate components to use in the solution.

What should you use? To answer, drag the appropriate implementation mechanisms to the correct requirements. Each implementation mechanism may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point

Implementation Mechanisms	Answer Area
Actions	Action Automatically send a text message based on the report submission. Implementation Mechanism []
Triggers	Action Automatically send a reminder at 8 PM based on a missing status report. Implementation Mechanism []
Conditions	
Business process flows	

Answer:

Implementation Mechanisms	Answer Area
Actions	Action Automatically send a text message based on the report submission. Implementation Mechanism []
Triggers	Action Automatically send a reminder at 8 PM based on a missing status report. Implementation Mechanism []
Conditions	
Business process flows	

About Lead2pass.com

Lead2pass.com was founded in 2006. We provide latest & high quality IT Certification Training Exam Questions, Study Guides, Practice Tests. Lead the way to help you pass any IT Certification exams, 100% Pass Guaranteed or Full Refund. Especially [Cisco](#), [Microsoft](#), [CompTIA](#), [Citrix](#), [EMC](#), [HP](#), [Oracle](#), [VMware](#), [Juniper](#), [Check Point](#), [LPI](#), [Nortel](#), [EXIN](#) and so on.

Our Slogan: First Test, First Pass.

Help you to pass any IT Certification exams at the first try.

You can reach us at any of the email addresses listed below.

Sales: sales@lead2pass.com
